

"Survival" Subject of Discussion At Meeting Held Here Sunday Afternoon

Committee Appointed To Organize Emergency Measures — Meeting This Sun.

What would you do if Canada were involved in a nuclear war tomorrow? Where could you take shelter? What could be done to make sure that you had pure food and water in case of emergency?

During the past two weeks, these and many other similar questions have been asked by thousands of Canadians. One thing is certain. If nuclear war came tomorrow it would be largely up to us as individuals to care for our families and ourselves. At least for the first 48 to 72 hours we could not expect outside help. Several will say that it doesn't matter to them, they would just as soon perish if nuclear war came. True or not, can we speak the same words for our youngsters? As citizens and parents we have a very grave responsibility.

It is a proven fact that if citizens can survive the first two or three days of nuclear war, their chances of survival increase greatly every hour thereafter. The immediate problem then is what can we do to survive such a major catastrophe?

Last Sunday, over 150 local citizens met in the Community Hall to hear a number of speakers. As a result of this meeting, a committee was set up to organize an Emergency Measures Organization for Stirling Village and Rawdon Township.

Members of the committee are: Dr. Bruce Murray, Mrs. A. Fraser, Mr. D. O. Duffin, Mr. Gilbert Finkle, Dr. Wm. Hipwell and Mr. Bert Cook. The chief task of this group is to take the initial steps in establishing a permanent group to operate an E.M.O. in this area.

The public are urged to interest themselves in the work of the Emergency Measures Organization. This is where we can all learn the basic rules of survival if nuclear war should come. This is where plans will be made to enable our communities to meet great emergencies in a business-like and sensible manner. Each of us has a responsibility to support the establishment of an Emergency Measures Organization. The information and training which anyone can obtain through E.M.O. is such that it will prove to be of great value even in other emergencies such as earthquakes, violent storms, or even home accidents.

Second Meeting This Sunday

The local E.M.O. is planning a second meeting to be held in the Stirling Community Hall this coming Sunday, November 4th at 2:30 p.m. It is hoped that the meeting will be addressed by an expert on the subject of food. How to stock your home, how to safeguard and prepare food in case of an emergency. This meeting and all future meetings will be planned to last not over 90 minutes. All citizens are urged to be in attendance, this Sunday, November 4th at 2:30 p.m. in the Community Hall.

Volunteer Help Needed

The local committee appeals for volunteer help to assist in the establishment of a local Emergency Measures Organization. The most pressing need is for persons who are able to do clerical work in gathering and dispersing information. No offer of assistance will be turned down. The work is purely voluntary — but most essential to the success of this understanding. If you can help please call the Committee Secretary, Mrs. Albert Fraser, EX 5-2491, any evening between the hours of 6 and 8 p.m.

Future issues of the News-Argus will carry more detailed accounts and information regarding the organization and activity of the local E.M.O. For the present the general public are simply urged to give this project their sincere support by attending the meeting next Sunday and further by volunteering assistance as outlined above.

County Warden Harold Varty Entertains at Banquet

(Ontario Intelligencer)

Hastings County Warden Harold Varty, of Hungerford Township, and Mrs. Varty, were hosts Saturday evening to more than 300 guests at the 1962 Warden's Banquet held in the auditorium at the Tweed High School.

County officials, local members of parliament and others paid tribute to Warden Varty for his sincerity in office and for his devotion to duty as the County Council head.

Guests also heard speaker Ted Fielder, president of radio station CFRS at Simcoe call for a reversal in the trend toward increased public welfare. The topic of his address was "What is the Challenge of Our Age."

Contrary to the opinion of an ever increasing percentage of the population the world owes nobody a living, Mr. Fielder stressed.

Unfortunately the feeling that the world does owe them a living is attained by many people at an early age and according to the speaker in many cases schools were doing little to change this thinking. Schools should teach that what is

useful to the individual is also useful to society.

"If you want something from life, go out and work for it," Mr. Fielder urged. "I don't agree with the idea that the government should provide more and more services. Much of today's welfare should be provided by the individual."

Tribute Paid

Among those paying tribute to Warden Varty were Senator George White, of Madoc, recently named speaker of the Upper House.

Senator White said his new position was a credit to the riding from which he came, but assured his listeners he was still one of them.

Others speaking briefly in tribute to the Warden were Lee E. Grills, M.P. for Hastings South; M.L.A.'s W. E. "Sandy" Sandercock and Clarke T. Rollins.

Members of County Council were introduced by County Clerk Carl Bateman who acted as banquet chairman, while ex-wardens were introduced by Councillor William J. Davis, of McLure, Wicklow and Bangor Townships.

Reeve Charles Long, of Tyendinaga, responded to the Warden's address of welcome.

Marmora Reeve William A. Shannon proposed the toast to the guests, responded to by Deputy Mayor Ben Corke, of Belleville, and Trenton Mayor James MacDonald. Wardens from neighbouring counties, including Miss M. L. Bamford, of Haliburton, Ontario's only lady warden, also spoke briefly.

Members of County Council presented Warden Varty with a handsome riding saddle.

"It's something that I have always wanted," said Warden Varty in appreciation. Roses were presented to Mrs. Varty.

A full scale black-face minstrel show staged by about 25 members of the Madoc Kiwanis Club provided an enjoyable hour of entertainment to conclude the evening.

Senator Wm. Fraser Died In Hospital

Senator W. A. Fraser, a Liberal member of the Upper House since 1949, died in hospital at Kingston on Friday night. He was 76.

Senator Fraser, from Trenton, Ont., had entered Kingston General Hospital a few days ago.

An industrialist and fruit grower, Senator Fraser was elected to the House of Commons for Northumberland riding in 1930 and held the seat until 1945, when he retired.

Born in the Trenton area, the short, chunky senator founded the Trenton Co-operative mills and was mayor of the town from 1923 to 1930.

He was known affectionately as Nickel Billy, and in his fiery younger years he distributed \$1 bills by the handful at rallies.

He was credited with getting Trenton on its large RCAF base. He established Central Bridge Company there about 1930 and sold it in 1950 to Toronto Iron Works Limited, of which he became a director, and he influenced establishment of many other companies.

Surviving are his wife, the former Blanche Agnes Macaulay, of the Trenton area; a sister, Mrs. Eben James, of Trenton, and three nephews. He had no children and a brother predeceased him.

I.O.D.E. Remembrance

Day Message 1962

Remembrance Day is inevitably a day of memories — memories which in the minds of some of our citizens stretch back to the last days of the nineteenth century when rugged young Canadians embarked for service in the Boer War.

On Remembrance Day, 1962, Canadian grandparents will recall that 60,000 of their generation fell in the cause for freedom during World War I. Parents will recall that 42,000 of their generation made the supreme sacrifice in World War II. Thousands of veterans, both men and women, will hold particularly poignant memories of comrades killed, wounded and missing after battles on sea, land and in the air. Though years have intervened since the close of world-wide conflict, the tragedy, sadness and horror of war come flooding back into memory. Momentarily past and present are one.

Among a great many scenes in the rich tapestry of Canadian history is the momentous Battle of Vimy Ridge, a decisive Allied victory in 1917 during which Canadians won a lasting reputation as superb assault troops. So vital was this engagement in developing the confidence of the young country that it has been said, "Canada was born as a nation on Vimy Ridge."

Following World War I the people of France graciously granted in perpetuity 250 acres of Vimy land as a National Battlefield Park. Today on the crest of the famous Ridge stands the magnificent Vimy Memorial which emphasizes nobility and peace rather than the grimness and desolation of war. The eminent Canadian sculptor, the late Walter S. Allward, who designed the monument, described his remarkable creation in these words:

"At the base of the strong impres-

nable walls of defence are the Defenders, one group showing the Breaking of the Sword, the other the Sympathy of the Canadians for the Helpless. Above these are the mouths of guns covered with olive and laurels. On the wall stands a heroic figure of Canada brooding over the graves of her valiant dead; below is suggested a grave with helmet and laurels. Behind her stand two pylons symbolizing the two forces — Canadian and French — while between, at the base of these, is the Spirit of Sacrifice, who giving all, throws the torch to his comrades. Looking up they see the figures of Peace, Justice, Truth and Knowledge for which they fought, chanting the hymn of Peace. Around these figures are the shields of Britain, Canada and France. On the outside of the pylons is the cross."

The complete structure of the Vimy memorial is approximately 200 feet sq. at the base and about 125 ft. high. It is composed of the wall of defence on which rests a supporting base bearing the two towering pylons. The hard, enduring stone of the monument was quarried in Yugoslavia — from the same quarries used by emperors when the Roman Empire was at its peak of glory. Under such circumstances it was only fitting that skilled Italian sculptors should assist in the difficult operation of carving. The ten-year task of engineering construction of the Vimy Memorial became the responsibility of a Canadian engineer, Captain Unwin Simson.

So massive is the monument and so admirable its location that it may be seen from a distance of fifty miles across the French plains. At night it is unusually striking in appearance when its floodlit surface glows brightly through the darkness, a beacon to freedom.

The Vimy Memorial was unveiled on July 26th, 1936, by His Majesty, King Edward VIII and the President of France, M. Albert Lebrun. On this historic occasion over 7,500 Canadian war veterans, taking part in the Vimy Pilgrimage, were present at the ceremonies.

While Canadian citizens across the nation, are holding their Remembrance Day Services on November the Eleventh of this year they may well pause to reflect that a similar service is being held on hallowed ground in the shadow of the great stone shafts that rise above the crest of Vimy.

F/O Bruce Beckett of the RCAF Station Summerside, was unable to be present but sent a congratulatory message to his parents.

To Build Hospital Addition

It was decided by the Belleville General Hospital Board of Governors recently that present expansion would be confined to an addition to the present building. This decision culminates a two-year discussion on whether to construct another hospital on a new site, or build an addition. Hastings County Council recently agreed to pay a percentage of any future hospital expansion costs.

The first rules for ice hockey, and still the game's basic rules, were laid out by students at McGill University, Montreal, in 1875.

Juniors Advance

Into Finals

It was a typical fall day when the Stirling Juniors came up with their fifth victory of the schedule when they defeated the Ontario School for the Deaf, Belleville, 18-0 at the local Fair Grounds.

Stirling started off well in the first half with Ken Smith carrying the ball for a touchdown midway through the first quarter. Later in the second quarter Ted Reid and Fred McAdam scored touchdowns for Stirling.

The rest between halves seemed to cool the boys off, for they were unable to connect passing plays or get touchdowns in the second half.

The juniors' win created a three-way tie for first place (Madoc, Marmora and Stirling). Because of this, total points for and against were calculated, which dropped Stirling to third place. They now commence the finals against Marmora.

Seniors End Schedule

In Defeat

It was the same old story for the Stirling Seniors Thursday when they dropped their final game of the schedule 38-6 to Tweed. The score tells the story itself, but up until the second half, Stirling were very much in the game. Hommersen scored the lone touchdown.

A combination of terribly cold weather and injuries helped in the Stirling loss. Because of an injury in the previous senior game, Jim Johnson was unable to play; also Allan Fletcher was out with the flu. Coach Mr. Hemmerick brought up lineman Larry Preston from the juniors to fill the gap.

It was too bad the seniors witnessed such an unsuccessful schedule — winning but one game. The boys deserve a lot of credit though for hard work and perhaps things will be different another year.

The following is the lineup for the Stirling-Rawdon District High School Senior Football team:

Robert Vandervoort, Grant Hagerman, Dennis Bush, Peter Bosiak, John Hommersen, Albert Lawes, Andy Faulkner, Greg Haggerty, Jim Johnson, Robert Luery, David Murray, Doug Potts, Allan Fletcher, Don Cooper, Eddie Reynolds, Fred Spencer, Howard Jeffs, Bill West, David Glidden and Ross Sables. Coach, Mr. B. Hemmerick.

CHASE TAKES LIFE

George Harvey Williams, 20, of Bloomfield, was killed and four other youths were injured in a crash which ended a 100-mile-an-hour police chase

Monday night near Picton.

In hospital in fair condition are Gerald Williams, brother of the dead youth, Archie Welden, Raymond Hart and Lyle Lalonde, all of Picton.

CULTURED FOODS

It is amazing that we are entering the space age and yet, still enjoying such foods as fermented milks that go back further in time than Abraham and the Genghis Khan. But a look at dairy counters proves this is so. We see there Yoghourt, Buttermilk and Sour Cream, all cultured products which have been handed down to us through generation on to generation.

Yoghourt goes back into history more than 4000 years. In the lands of the Middle East it might be made from the milk of the goat or the yak but in Canada, it is made from pasteurized, homogenized, fresh cow's milk which has been carefully inoculated with laboratory prepared cultures. These cultures are composed of harmless acid-producing bacteria. They change the texture of the milk from a liquid to a silk-smooth, custard-like firmness and the flavour of the milk from sweet to tangy. Sometimes fruit flavours, such as cherry, are added. Yoghourt is sold from refrigerated dairy counters and some dairies may date stamp the container to indicate how long its good quality may be retained.

Yoghourt has the same food value as milk; however, due to the fact that it is soured or fermented it is more easily digested than milk.

The Consumer Section, Canada Department of Agriculture, Ottawa, tells us that yoghurt is used very often for between meal snacks. At meal time it may be served on fresh, canned or frozen fruits, over jellied salads or even on cold cuts. Yoghourt is also popular seasoned with onion, paprika and pepper and served with cucumbers. It adds a savory note when swirled into soups and a cool note when used as a garnish for the hot spicy foods of countries such as India.

Buttermilk in grandmother's day was the fluid remaining in the churn after the butter making was completed. It was drained from the churn into pitchers and set in the creek or the ice house to cool. A glass of this buttermilk on a hot summer afternoon was considered a real treat.

It is still used as a refreshing beverage but there the comparison more or less ends, for buttermilk we buy at refrigerated dairy counters is a carefully regulated product. It is made from fresh, pasteurized skim or partially skimmed milk to which has been added a controlled amount of lactic acid culture. This culture gives the milk the right degree of tang and curd.

Buttermilk has the same food value as the milk from which it is made. It is used chiefly in recipes for quick breads says the Consumer Section, or as a substitute for sour milk.

Sour Cream is made in our modern dairies from fresh, pasteurized sweet cream with a butterfat content to that of table cream. Like yoghurt and buttermilk it is soured or fermented by inoculation with a lactic acid culture. Dairy cream is very white with a velvety texture and a characteristic tang. Except that it is not eaten alone for snacks, its culinary uses are similar to yoghurt. It is used in recipes for baked goods; in dressings for salads; in sauces for vegetables and meats; as a tasty garnish for fruits, soups and so on. Veal steaks or cutlets, dipped in seasoned flour and lightly browned in fat to which a bit of paprika or onion has been added are delicious finished off by simmering about 45 minutes in sour cream — 1 to 1½ cups of sour cream is enough liquid for 1½ to 2 pounds of veal.

Here are a few more tested recipes for your sour cream recipe file:

Sour Cream

Strawberry Special

1 pint sour cream
1 cup sugar
Few grains salt
1 tablespoon lemon juice
1½ cups strawberries, thinly sliced

Blend together sour cream, sugar, salt and lemon juice, then fold in the strawberries. Pour into refrigerated tray. Place in freezing compartment of refrigerator, with control set at coldest position. When mixture has frozen to a mush, stir well and whip with a fork. Freeze until firm. Six servings.

Sour Cream Sauce

For Vegetables

2 tablespoons butter
2 tablespoons flour
½ teaspoon salt
¾ teaspoon pepper
1½ cups sour cream

Melt butter in top of double boiler, then blend in flour and seasonings. Gradually add sour cream, stirring until blended. Cook over low heat, stirring constantly until mixture be-

gins to thicken. Then place over hot water and continue cooking for five minutes. Serve over drained, cooked vegetables. Makes about 1½ cups.

Sour Cream Dressing

For Salads

1 cup thick sour cream
2 tablespoons white vinegar
½ teaspoon sugar
½ teaspoon salt
Few grains pepper
1 tablespoon minced onion
Combine all ingredients. Chill thoroughly. Makes 1½ cups. Use with cabbage and lettuce salads.

Cooking Comments

Here's a hearty sandwich that the home economists at Macdonald Institute, Guelph, call a "Hungry Boy's Dream." On a thick slice of French stick, place a layer of luncheon meat, top with nippy Ontario Cheddar cheese, a green pepper ring and slices of hot broiled bacon. Garnish with hard cooked egg slices and paprika.

To sour sweet cream, add 1 tablespoon vinegar or lemon juice per 8 ounce cup of cream. Then let the cream sit for a few minutes.

Bake or broil peach halves, topped with brown sugar and butter at 350 degs. F. until tender. Use as a garnish for any meat.

Leftover egg yolks? Don't throw them away. Cooked egg yolks freeze quite easily with no required additions of salt or sugar. However, when freezing raw egg yolks, it is best to add ¼ teaspoon salt per ½ cup of yolks for meat and casserole dishes; and 1 teaspoon sugar per ½ cup yolks for future use in cakes and desserts. Mix thoroughly and freeze.

OF MANY THINGS

(By Ambrose Hills)

MAKE LIFE IMPORTANT

"I couldn't care less," the man said.

He was talking about politics at the time. In his opinion, those of us who work ourselves into a lather about whether this country turns left or turns right are crazy. As he put it, "I've enough to do to paddle my own canoe."

This stand-offish attitude of his applied to many things. He couldn't care less, either, about who wins the Grey Cup. Or puts a man on the moon. "As long as I get three squares a day," says he, "I don't much care who spins the universe."

His favourite phrase is, "What does it matter?" He points out, with potent logic, that "all of us wind up with only six feet of earth in any event."

Around his town he has a reputation as a philosopher. Among the no-goods, that is. They like what he says. It is comforting for them to think that nothing matters much, because they have no intention of doing anything much and consequently little hope of having anything much.

Well, it's a free country. They are entitled to feel this way... if they really do. I can't help feeling sorry for them. I suspect that down deep inside, they want very much to do things, to accomplish, to create. If one could suddenly pull their alibis out from under them, they might just manage a bit of distance yet. They might make their lives important, at least to themselves and those near and dear to them. Even if they hooked themselves right into the current of life for only a day or two, and felt the light coming on inside, it would be worth something. Like unused storage batteries, they are simply running down, and it is sad to see.

"Everything's breaking wrong for me," I heard another man say. But he was alive, and trying, and fighting it out. The light was on inside, and the motor was sputtering at least. And he cared — about a lot of things. About freedom, about sports, about business, about success and about failure; and, I suspect, he cared more deeply about his family and his friends than does his philosopher neighbour who has schooled himself to care little about anything.

Involvement is the thing, even if you break your heart at it. There'll be light and warmth, even if you fail, as long as you are fully involved. And a darn good hard-fought failure tops rotting by a long way.

Cost of the 4,891 miles of the Trans-Canada highway, to completion in 1963, is estimated at \$699 million, of which federal contribution will be \$408 million.

The Good Driver

"Take the dangerous drivers off the road!" is a frequent demand from members of the public who have been horrified by some spectacular traffic tragedy, resulting from criminal carelessness. But how? The first question facing licensing authorities and police is how to detect a potentially bad driver?

The Ontario Safety League quotes from an article by Don Ross in the New York Herald Tribune, who says that the driver is the chief mystery in traffic safety. Yet his inadequacies cause up to 90 per cent of all traffic accidents.

For thirty years researchers have attempted to identify characteristics common to drivers involved in accidents and to devise tests that would uncover these characteristics in applicants for licenses. But the hope that applicants found to possess such characteristics could be prevented from driving hasn't worked out.

Accident-involved drivers have been compared to safe drivers with respect to vision, depth perception, glare recovery, reaction time, manipulative skills and knowledge of traffic laws without finding common denominators to set the good drivers apart from the bad ones. The accident-involved driver may score better in all these respects than the driver who has never had an accident.

There has been an unwelcome search for the "accident prone" driver. Chronic violators have been found, but it is estimated that they amount to no more than 1 per cent of all drivers, and that if all of them were removed from the roads accidents would be reduced by only 4 per cent. The great majority of accidents are caused by "average" drivers who may have no more than one or two accidents in a lifetime.

Dr. William Haddon Jr., director of the New York State Driver Research Centre says: "There is no scientific evidence of which I am aware that the scores on the written and driving examinations given to drivers' license applicants in any way whatever correlate with their subsequent accident, violation and conviction record."

The search for the psychological test that will flunk the potentially bad drivers goes on. Some experts say it will never be possible to construct such a test. Other experts say that even if it were it would be politically impossible to administer it if it flunked any large number of voters. Testing of would-be drivers is essential in the motor age, and is a first line of defense against incompetence. But the Ontario Safety League emphasizes that traffic safety will always remain essentially a matter of human behaviour. Substantial progress towards a reduction in accidents and tragedies must be the responsibility of the individual — not the licensing authorities.

THE BIBLE TODAY

Dr. Neil A. Duncan has been engaged in Operation Flying Doctor in Australia. Now he is to open up a similar service this Fall in Nigeria.

Radio contact will be established with some 20 villages, the base of operations being at Gusau, Nigeria. Twenty-four out-stations will be operating with transceiver sets on the Australian Flying Doctor pattern.

This is the first of this type of service to be given in Nigeria. In Congo, Missionary Doctors have been using small aircraft to reach remote villages for some years now.

Besides their medical supplies, these mission Doctors carry quantities of Scriptures for distribution among the literates. In this way, people are reminded of the powers of healing for body, mind and spirit available in the Great Physician.

ONTARIO TO REVIEW TAXATION STRUCTURE

Premier Robarts has announced that a review will be made in due course of the provincial and municipal forms of taxation in Ontario. He said there is a real need for such a review if the province is to have a complete picture of its tax structure.

The provincial-municipal study will attempt to end discrimination and unfairness, he said. Such a study, Mr. Robarts emphasized, will give the government an opportunity to ensure an orderly distribution of taxes after they are collected and possibly result in a re-allocation of certain fields, in order that the level of government spending the most money collects sufficient money to do its job in the proper manner.

He said there is no easy solution to the problem of steadily increased costs of government operations today.

NEWS FOR THE BUSY FARMER

Furrow and Fallow By Fairbairn

The Ontario Milk Producers' Provisional Board will have plenty to talk about when it meets November 1st and 2nd. This two-day affair was originally planned to discuss suggested changes in the proposed over-all plan which has been stalled for several months, but in the last week or two both federal and provincial ministers of agriculture have made statements that are giving all milk producers cause for thought. If they aren't thinking, they should be because this is the handwriting on the wall that many farm leaders — and writers — have been pointing to.

Agriculture Minister Hamilton has pointed out that half the dairy year has practically gone (October 31st) and he sees no indication that producers in Ontario and Quebec who turn out 70 per cent of Canada's milk have taken any steps to put their houses in order. By that he means introducing a program to bring about a better balance between producers and consumption which really means restricting production since producers can do very little to increase consumption. Dairy Farmers of Canada do have a promotional programme, but they are asking for much more money to do the job and it is a long-term proposition.

Mr. Hamilton threatened to reduce price supports drastically if producers do nothing to voluntarily restrict production to eliminate surpluses that are upsetting the domestic market. He again pointed the finger at fluid

producers whose surplus was going into other market outlets such as powder and butter. We might suggest to the minister one step that could reduce powder production and payment of subsidy without hurting good producers. At present the 25 cent per cwt. subsidy on milk for processing is paid on all milk regardless of quality. Withdrawing the subsidy on inferior quality milk could have only two results: One, reducing the amount of milk going into processing channels such as powder and cheese or two, improving the quality of this milk. Either result would be beneficial. The current campaign to improve milk quality in Ontario would get a boost and it should also be able to provide information on grades of milk sold for processing.

Ontario's minister of agriculture, Bill Stewart told the annual convention of the Farmers' Union last week that the milk marketing plan in this province had apparently not progressed very far, that it was a producer plan and it was up to the producers to come up with some solutions to the problems facing the dairy industry. He didn't say it, but he might have added that producers must act forcefully if they want to avoid drastic government action. Mr. Stewart did say that he was getting tired of hearing that Ontario is the chief offender in creating dairy surpluses. He suggested that Ontario might be self-sufficient — that is, might consume its own dairy production — if left alone but, of course, inter-provincial trade prevents that and is also essential in our national economy.

Ontario Beef Producers held a special meeting in Toronto last week to discuss the minister's suggestion for an Ontario beef improvement association and his offer of assistance from the ODA in such a project. After considerable beating about the bush, the meeting recommended that county associations consider the proposal and come to the annual meeting of the provincial association prepared to act. Generally speaking, most producers seemed to favour the idea of some changes in the constitution of their association to allow it to operate along the lines similar to the Ontario Soil and Crop Improvement Association. This would not be a marketing plan which has been discussed but which most producers apparently do not want. They do want a promotion programme and an information programme of some kind to improve quality and sales of beef.

Now Is Time To Dig Tubers

It will soon be winter with those killing frosts. Are all your tender garden plants cared for yet? How about your dahlias and tuberous-rooted begonias? If you haven't dug them up yet, make plans to do so soon, advise horticulturists with the Ontario Department of Agriculture.

Wait for a fine day to do your digging, and start early in the day so as to take advantage of the sun to dry them.

After the first killing frost cut your dahlia plants to within two or three

inches of the ground. Dig them carefully to avoid damaging the storage roots, and turn them upside down to dry in the sun. In the evening, take them inside and store the roots in boxes of dry sand, peat, or sawdust. The boxes should be stored in a cool place at about 40 to 45 degs F. where the atmosphere is not too dry.

Tuberous-rooted begonias can be treated the same way except that the tops can be left on at digging time. After the tops have dried, break them off. The tubers can then be stored in the same way as dahlias.

Hastings County Fed. of Agriculture Plans Events

The Hastings County Federation of Agriculture held their monthly meeting on October 25th at Stirling.

The president, Russell Sills, West Huntingdon, presided. The members were reminded of the 26th annual convention November 12, 13, 14 to be held in Toronto at the Royal York Hotel. This promises to be an interesting meeting, the theme being, "The Challenge of Change."

Mrs. Percy Ray, Halloway, gave a brief outline on the publicity workshop held at Lansdowne for publicity officers. Reports are to be kept simple, readable, brief, newsy, factual and straight forward.

R. Cunningham, fieldman for Hastings, Lennox and Addington and Prince Edward, explained the duties of the publicity officer.

Plans for the annual banquet to be held in Carmel United Church, Rawdon, in November were announced. The guest speaker will be Mr. Art Musgrave, 1st vice-president Ontario Federation of Agriculture. Tickets may be obtained from any director.

Radio Farm Forum has taken to the air at a new time this season, from 9 to 9.30 p.m. on Monday evenings. Mrs. Edith Storr, secretary, reported that steps are being taken to assure maximum participation among rural people in Ontario this year.

Free Land For Industry

(Marmora Herald)

In an effort to induce some industry to settle in this area, Mr. Frank Follwell, Belleville Real Estate Agent, has acquired fifty acres of land about two miles south of Marmora on No. 14 Highway and this land will be given absolutely free to any industry who will locate on the property and erect a plant which will employ labor from the area.

A large sign has been erected on the property which it is hoped will attract attention and that some industry will take advantage of the opportunity.

The property is along the highway and close to the CNR Railway line.

With the loss of the Deloro Plant this area could certainly use an industry of almost any kind which would employ local labour and it is hoped that Mr. Follwell's offer will be accepted in the near future.

Record Set

Canadians ate a record amount of chicken last year and were just a gulp away from setting one for turkey.

Per capita consumption of fowl and chicken meat reached a record 23.2 pounds last year, up 1.2 pounds from the previous high in 1959, reports the Markets Information Section of Agriculture in its 11th annual Poultry Market Review.

Turkey consumption amounted to 7.7 pounds per person, an increase of 1.3 pounds over 1960 but a shade less than the record 7.9 pounds in 1959. Consumption of goose and duck meat at half a pound per person was unchanged from last year.

Canadian processing plants handled a record 430.7 million pounds of poultry meat, topping 1960's total by 27 per cent.

Broiler chicken accounted for 226.5 million pounds; turkey, 118.9 million; heavy chicken, 43.7 million; ducks, 2.1 million; geese, 1.2 million; fowl, 38.3 million.

Heavy supplies of broiler and turkey meat were reflected in record low prices in 1961, reports the Poultry Market Review.

CONSERVATION NEWS

HUNTING SAFETY

Heart attacks are taking their toll of human lives this year among hunters. The Ontario Safety League warns prospective hunters of the danger of unaccustomed physical activities in-

volved in deer hunting. Before you go on your hunting trip, get yourself in condition by systematic walks and exercise. If you have any doubts about your physical condition, have a medical examination.

The Ontario Safety League lists the following as safety equipment which every hunter should carry with him even for one day in the bush:

— A compass and detailed map of the area in which you are going to hunt. Excellent maps are available from the Ontario Department of Lands and Forests.

— Hunting knife and small hand axe.

— Small, personal first aid kit.

— Matches in a waterproof container. An empty 16 gauge shell inserted in a 12 gauge shell makes a good waterproof case.

— Sufficient food and water for the time you will be away from camp or home.

More fatalities in deer hunting from "mistaken targets" than any other type of hunting accident. The Ontario Safety League states that a responsible hunter never pulls the trigger until he can clearly see the complete outline of the game he is hunting. This avoids human tragedies and results in less wounded and crippled game.

LEGION NOTES

There are some who deplore the annual ritual of remembrance. They say, "why re-open old wounds and revive memories of the pain and sorrow of family bereavements?"

The error in this sort of thinking is that by allowing time to dim the memory of our losses we could easily forfeit the freedoms for which thousands of Canadians gave their lives. Another generation, unappreciative of the tremendous sacrifices of the past, might not hold so dear the democratic principles for which we fought.

Only from the great recorded achievements of the past can we draw the courage required of us in the future. Canadians should realize today more than ever the tremendous debt of gratitude they owe to our war veterans and to our war dead. By their courage and supreme sacrifice they made it possible for us to retain our dignity, pride and integrity as citizens of a free nation.

Every year on November 11th we observe Remembrance Day in tribute to all those who in past wars gave

their lives and sacrificed health and the prospects of long, happy years in order to preserve this country and individual liberty.

Every year, we seem to observe Remembrance Day at a time of crisis. The rewards for which so many fought and died are gravely threatened by war in some parts of the world and cruel suppression in others. This year is no exception.

Our hopes for a lasting peace after World War I were shattered in a short 20 years by Hitler's goose-stepping hordes. After six years of fire and death the United Nations was set up bright with hope. But now, it seems to be used primarily as a public platform for propaganda as well as rightful expression.

Now, as we listen to the news about Berlin and the wall, Remembrance Day calls us to stand fast, to remember those who died, those who came home broken and maimed. This is the answer to those who would have Canadians forget the past and let fade the painful memories of sacrifices made by so many of Canada's sons.

The reminder of our sacrifices — the scarlet poppy — is now accepted by a third generation of Canadians. The Legion's annual appeal receives the support of a vast majority of the non-veteran public, not only because of its symbolism, but because they know that the funds derived from

STIRLING HORTICULTURAL SOCIETY

Hyacinths to be forced should be potted soon. Be sure that the soil is well soaked before they are put in the dark, otherwise roots will not start. An occasional watering may be necessary.

this distribution help ex-servicemen and women and their dependents who are in need.

The public know these things, but they need to be reminded each year that the humble little emblem is made by disabled veterans who thereby gain a living from it. They know that the Legion Poppy Fund is held in trust for the one specific purpose of helping ex-servicemen and is kept apart from regular Legion funds.

Last year, over six million Canadians wore a poppy. This year, the Legion is resolved to make it possible for many, many more Canadians to wear this emblem on Remembrance

Day. The Stirling Branch is planning a campaign which will reach all sections and all people of our community. It is their sincere hope that the public will not only respond generously to this appeal, but will also devote some serious thought to the reason for Remembrance Day.

Several Deputations Wait Upon Village Council at Regular Meeting

Co-Ordinator and Commit- tee To Be Appointed for E.M.O. — Bylaw Passed

The regular meeting of the Village Council was held in the Council Chambers on Monday night, with Reeve G. C. Mouch presiding and Councillors G. Noble, Jas. Chambers and Bert Jones in attendance.

Rev. J. F. O'Neill waited upon Council relative to a sewer connection for St. James Rectory on Edward Street. The present sewer line is not deep enough to take sewage from the basement of the building. Several alternatives, including the digging of a sewer line west to Nancy St., were discussed and it was finally decided to have the property committee investigate the matter.

Messrs. H. C. Pitcher and Clarke Rodgers also addressed Council relative to a drainage problem in the vicinity of their Mill St. properties. Mr. Pitcher explained the drainage system serving the area but the raising of the street level under the recent road construction programme by the County had changed conditions and he and Mr. Rodgers were concerned over what would happen in the event of a sudden break-up in the Spring. They visualized excessive flooding of their properties unless steps were taken to provide the necessary drainage facilities. Council agreed to install 12" tile from the existing manhole to the corner of William and Mill Streets, where a catch basin would be installed.

Dr. R. B. Murray, Doug Patterson, Gill Finkle and Bert Cook, members of the Emergency Measures Organization recently formed here, waited upon Council with respect to further action being taken to prepare the citizens for survival in the event of national emergency.

To Appoint Co-Ordinator

Dr. Murray stated the present committee had endeavoured to promote interest in the organization by holding meetings and would continue to do so, but it was necessary that Council appoint a co-ordinator and a body of responsible citizens to establish a plan for the Village and work in conjunction with the Quinte District Emergency Measures Organization. Such a plan should provide a warning system, mutual assistance and ensure continuity of government. "In the event of an emergency," stated the speaker, "Stirling being a small village would be on its own and we should have our own organization functioning."

On motion of Councillors Chambers and Jones, Council approved of the work being done by the committee, and agreed to appoint a co-ordinator and committee at a later date.

A communication from Fred McDonnell complained of the condition of the fence on the east side of the dump and town street employees will make the necessary repairs.

The payment of frontage tax for sewerage, amounting to \$531.23, was received from the Dominion Department of Finance for the local Post Office. A payment of \$50.00 from the Underwriters' Adjustment Bureau for damage done the cemetery gate was also received.

A communication from the Department of Transport gave the information that it was now necessary to have a blue flasher installed on snow plowing and sanding equipment.

The Ontario Department of Highways wrote Council regarding the sale of the Church St. property now pending.

The balance of the municipal unconditional grant, amounting to \$1,972.50, has been received by the municipal treasurer.

A letter re a training course for policemen was tabled from the Ontario Police College, and a letter from Hastings County Farm Safety Council asked Council to check on all school signs in the community.

The report of Police Chief D. M. Ketcheson was tabled and adopted.

Poppy Day

Permission was granted Stirling Legion to hold a Poppy Day in the Village on Saturday, November 10th. The installation of tile in front of a Henry St. property and other street repairs were referred to the streets committee for action.

Bylaw Passed

Council went into a committee of the whole on bylaws and Bylaw No. 642 to purchase one and a half acres (Continued on page eight)

"At the going down of the sun,
And in the morning,
We will remember them."

These words are spoken at the close of every meeting of the Royal Canadian Legion in Canada. They serve as a constant reminder to all Legionnaires of the real reason for the existence of the Legion. This Sunday, November 11th, is Remembrance Day. It is the day when all Canadians, young and old, are asked to pause for a few moments in the midst of the cares and worries of a world enjoying an uneasy peace, to remember those who gave their most precious possession that we may enjoy the rights and privileges of free citizens.

Everyone has a different way of remembering. To some it will be the memory of a father or son who is gone, and will never return. To others, it will be the memory of a dear friend or close comrade with whom they had lived and trained and fought through good times and bad. To our children, remembering will perhaps be more difficult for they did not know these men who gave their lives in both World Wars. But, being children, and knowing the joy and happiness of youth, they will remember how much these young men gave up so that we may live in peace and freedom. No matter how we remember, it is important that we do take time to remind ourselves of not only the gallant men who gave their lives, but to remind ourselves of the ideals and principles for which they fought and died.

The local branch of the Legion wishes to express its unanimous support of the establishment of an Emergency Measures Organization to serve the Village of Stirling and Rawdon Township. The Legion has pledged the full support of its membership to assist in any way the activities of such an organization in our community. At this time, the Stirling Branch of the Legion urges all citizens to support the programme of the local E.M.O. by attending the forthcoming meetings and by volunteering to devote some time and talent to the establishment of this essential community project.

AOTS Club Host Sons at Banquet

D. R. Patterson, Vice-Presi- dent O.M.H.A., Gives Talk On Work of Organization

An enjoyable time was spent Wednesday evening of this week when members of St. Paul's United Church AOTS Men's Club entertained their sons to a dinner and programme. The meal was served in the newly renovated Sunday School room by Afternoon Unit Three of the U.C.W.

President Wendall Camm chaired the meeting and Francis Lyons acted as Sgt.-at-Arms for the evening. Clare West led an interesting discussion on the new handbook of the United Church, "The Word and the Way."

The Fellowship report was presented by Fred Bateman. A lively sing-song was led by Harold Hagerman with Carl Baggis at the piano.

Doug Patterson Guest Speaker

Doug Patterson, 2nd Vice-President of the Ontario Minor Hockey Association, was the guest speaker. He has been on the executive of the O.M.H.A. for twelve years and gave a brief outline of the history of the organization. In 1935 a meeting was held in Brantford where 8 teams were organized with 168 players. The Association has grown steadily and last year 2,578 teams with 51,460 boys were registered throughout the province.

Continuing, Mr. Patterson pointed out that the aim of the O.M.H.A. was to promote minor hockey in Ontario — Canada's national sport. It also gives the boys an opportunity to learn and practise good citizenship and character; develops teamwork and a good physical condition.

The speaker concluded his remarks by saying that three important essentials for young people of today were Christian Training, Education and Recreation.

The speaker was introduced by Grant Potter and the thanks of the sons were ably expressed by Bill West to the Club and the speaker.

The Christmas meeting will be held at the home of Mrs. A. Wilhelm on December 6th with a fifty cent gift exchange.

The roll call was "old kitchen gadgets." The ladies displayed a large array of old utensils of the days of long ago which were very interesting.

Visit of District President

Mrs. Charles Wilson introduced the District President, Mrs. Percy MacMullen, who paid her second official visit that afternoon.

Mrs. MacMullen voiced thanks for co-operation and gave an outline of the District proceedings to date. She stressed the importance of good Institute procedure all through the year. The branch should have active members as officers of important positions. Fees must be paid before December 31st in order to qualify for membership. Conveners should send reports to the District immediately after the annual branch meeting. The transportation is eight cents mileage both ways.

Mrs. MacMullen spoke briefly re the Adelaide Hoodless Homestead, border picnic and the work in Northern Canada.

At the close of her address Mrs. K. Myers voiced appreciative thanks. Little Miss Linda Hay-Ellis presented Mrs. MacMullen with a gift on behalf of the membership. The recipient graciously replied.

The convener, Mrs. C. Wilson, gave an informative message on current events. She first told of Australia, where the recent A.C.W.W. triennial convention was held and then gave a brief outline re the survival meeting held at Stirling.

Mrs. Stanley Irven outlined the swimming course for school children.

Mrs. E. C. Hay-Ellis told of 1967 centennial coins. A contest followed entitled "The Famous Ten" when they displayed their ability to do art work blindfolded.

At the close the hostess and assistants served hamburger buns with novelty spreads, relish plates and tea and all enjoyed a social half hour.

Mrs. Vernon Harry voiced thanks for hospitality, programme, official visit and refreshments.

Broadworth -- Fox Nuptials at St. Andrew's

Baskets of pink gladioli and white phasta 'mums and ferns graced the chancel of St. Andrew's Presbyterian Church, Stirling, on October 6th at 12 o'clock noon, when Elizabeth Sally May Fox, daughter of Mr. and Mrs. R. Earl Fox, Stirling, was united in marriage to Raymond Ketcheson Broadworth, Madoc, son of Mr. and Mrs. Percy Broadworth, Madoc. The Rev. W. H. V. Walker, of St. Andrew's Presbyterian Church, Belleville, officiated at the ceremony.

Mr. Gerald Taylor, Harold, presided at the organ and rendered the traditional wedding music. Miss Linda Anne Morrow, Stirling, was the soloist and sang before the ceremony "The Wedding Prayer" and "I'll Walk Beside You" during the signing of the register.

Given in marriage by her father, the bride looked lovely in a full-length bridal gown of broad satin with long sleeves, scooped neckline and slight train. The skirt was caught with self bows. She wore a tiara headdress with elbow length veil of tulle illusion and carried a bouquet of red roses and stephanotis. The bride also wore a white mink cape.

The bride was attended by her sister, Mrs. Bev Hackett, of Belleville, as matron of honour, wearing a street-length dress of moss green nylon tulle. Mrs. Dale Ellis, Belleville, and Miss Isabelle Broadworth, Madoc, were bridesmaids, wearing dresses similar to the matron of honour in colours of wild honey and candlelight yellow. Each wore matching floral headresses and carried nosegays of white 'mums centred with yellow roses.

There were four darling flower girls, nieces of the bride, Miss Sharon McDonald, Glen Miller; Misses Laurie and Lynne Wanamaker, Peterboro, and Miss Beth Taylor, Harold. They were dressed in short green dresses trimmed with fur on the collars and cuffs, green velvet ribbon headbands and white gloves. They carried little baskets of yellow shasta daisy 'mums.

Mr. Bill Broadworth, brother of the groom, O.A.C., Guelph, was groomsmen. Mr. Bev Hackett, brother-in-law of the bride, Belleville, and Mr. Allan Broadworth, brother of the groom, of Beaverton, ushered the guests to pews marked by white satin bows.

The reception was held in the church parlour which was nicely decorated with white bells and pink and white streamers. The church ladies catered.

The bride's mother received the guests wearing an autumn green turtleneck dress, black accessories and corsage of bronze sweetheart roses. The groom's mother assisted, wearing a blue flowered crepe dress, blue accessories and a corsage of pink sweetheart roses.

The bride's table was appointed with a white linen cloth centred by a three-tier pillared wedding cake, topped with flowers, silver candelabras and white candles and the bridal bouquets completed the setting.

For the wedding trip to Toronto, Niagara Falls, Waterloo and other points in Western Ontario the bride chose a blue flowered silk dress, beige accessories and beige coat and corsage of white carnations.

Mr. and Mrs. Broadworth will reside at Madoc, R.R. 2.

Guests were present from Peterborough, Blenheim, Campbellford, Madoc, Belleville, Harold, Glen Miller, Trenton, Toronto, Beaverton, Guelph and Waterloo.

Previous to the marriage the bride was entertained at a miscellaneous shower in Belleville with Miss Jean Sutherland and Miss Lynda Taylor as co-hostesses. Fellow-nurses honoured Sally at this shower.

Friends, neighbours and relatives gathered at the home of Mrs. Francis

Jeffrey, Belleville, with Mrs. Dale Ellis, as co-hostess for a miscellaneous shower.

Following the wedding the bride and groom were honoured at a show-up in Madoc. They were presented with two step-up tables and a coffee table.

Fire destroyed an apartment above a grocery store and caused heavy smoke and water damage to the store's merchandise at Frankford on Friday night.

The fire broke out shortly after the store closed Friday night.

Frankford firemen fought the blaze for two hours and then called firemen from Batawa for assistance.

91st Anniversary Mount Pleasant United Church

On Sunday, November 4th, the 91st
anniversary of Mount Pleasant Raw-
don United Church was observed. The
edifice was a bower of beauty with
large bouquets of golden 'mums pre-
dominating and real red roses on the
pulpit. Evergreens, bittersweet and
other flowers were used for decora-
tion.

Morning Service

In the morning the church was
filled to capacity with dozens of
chairs placed to accommodate the
large number of worshippers and a
few extra in the Sunday School room
below.

Many former residents came home
on this occasion and over one hun-
dred guests were present in the
sanctuary from Oshawa, Ottawa,
Collins Bay, Tweed, Campbellford,
River Valley, Hord's, Burnbrae,
English Line, Springbrook, Ivanhoe,
Carmel, West Huntingdon, Eggleton,
Stirling, Frankford, Scotts, Foxboro,
Wellman's, Bethel, Kemptville, Marsh
Hill, Carmel, Bethel-Zion.

Mrs. Kenneth Weaver presided at
the console of the organ and provided
special music for the occasion. She
chose as a prelude, Rand's "Some-
thing For Thee"; offertory, Root's
"Floating on the Air"; postlude, Ged-
des, "The Lord Is Gracious."

The full choir, under the direction
of Mrs. Carleton Potts, rendered an
anthem, "Here Am I, Send Me," by
Landon, with special solo portions.
Miss Mary Ellen David sang as a
solo "There Were Ninety and Nine."

The service opened with "Glory to
the King of Kings." Previous to the
sermon the congregation sang "May
We Lead a Pilgrim's Life." The
offering was gathered by Messrs.
Bert Sharp, Lindsay McKeown, David
Potts and Tony Jonkman.

Rev. R. O. Reid

Guest Minister

The Rev. Robert O. Reid, B.A.,
B.D., of Foxboro, was the anniversary
speaker and gave a special message
on the theme "Second Hand Church." He
chose his text from 1st Kings,
fourteenth chapter and stressed that
the wider work of the church was
most important. God must come
first in our lives. He said too many
people put cars, shows, cigarettes,
liquor amusements and such first and
then if they have a little left over
they give God a second hand gift.

The speaker urged his audience to
follow in the path of the pioneers
who laid the foundation of the church
basing God first and self last.

The service closed with "The Son
of God Goes Forth to War" and a
prayer that we of today may follow
in their train.

Evening Service

The pastor, Rev. W. G. Fletcher,
B.A., assisted at the evening service.
There was a large attendance.

she rendered Wilson's "A Mighty
Fortress," and for the postlude,
"Honour and Glory," by Klitch.

The opening congregational hymn
was "Guide Me O Thou Great Je-
hovah" and previous to the sermon
"Jesus Calls Us." The choir rendered
an anthem "Lead Me Lord," by
Wesley. Miss Judy Cooney contrib-
uted a vocal solo, "Great Is His Love."

Rev. Robert O. Reid, Foxboro,
based his message on the 93rd Psalm,
"The Lord Reigneth." He stressed
that God is always present with lov-
ing guidance, however each individ-
ual has a free choice in choosing how
he will serve his God, and Master.
Church members should give an extra
thought at anniversary time to this
phase of life and thus reassess their
ways of worship.

Messrs. Bert Sharp, Paul Jeffs, Re-

Stirling Drops

Sudden Death Game

To Marmora

The Stirling Junior Football team
ended their schedule with Marmora
defeating them 12-6. They played
well, but the field conditions were
very poor. Marmora, having a heavier
team, had the advantage and they
used it in defeating our juniors.

Marmora got two touchdowns in the
first half of the game, and just "hung
on" in the latter half.

Our boys tried hard, playing one of
their best games, and with only one
minute remaining, Ken Smith scored
a touchdown.

Congratulations on a fine team ef-
fort and I'm sure the Stirling High
School will have a senior football
team next year filled with the stars
of the juniors from this year.

The following are the players who
made up this team:

Don Stewart, Firth Bateman, John
Bateman, Larry Preston, Doug War-
ren Eddie Svoboda, Brian Cooke, Fred

McAdam, Ken Smith, David Shortt,
Ted Reid, Eric Meinroy, Harvey
Leeman, Wayne Reid, Bruce Wood-
beck, Myles McDonald, Bill Potter,
Ross Kosmick, Bob Morrow.

This fine team was coached by Mr.
D. Harris and Mr. S. Alcorn, who did
a very exceptional job.

Bethel United Church 88th Anniversary

On Sunday, October 21st, Bethel
United Church on the Rawdon Circuit
observed their 88th anniversary with
a large assembly of worshippers in
attendance from the community and
nearby points.

The Church was adorned for the oc-
casion with baskets of autumn
blooms and the two pedestal stand-
ards were filled with bronze and yel-
low 'mums.

The Rev. R. G. Nicholls, B.A., of
Plainfield, was the guest minister and
based his morning message on "Clues
to Christian Character." He stressed
that a church is far more than a build-
ing and that a Christian should be
totally involved in the world around
him. He must be aware of individual
people and he must be responsible for
helping his fellow man. The use of
time, talents, wealth and activities
was stressed and the speaker suggest-
ed that anniversary time was a good
time to put into practice his message
to all.

Special music was arranged by Mrs.
Harold Elliott, A.T.C.M., church pian-
ist, who chose for the morning pre-
lude a selection by Peery "Offertory
In A Flat" and postlude "The Pil-
grim's March." The full choir render-
ed the anthem "Stand Up For Jesus,"
by Wilson. Miss Donald Heath con-
tributed a vocal selection, "I Heard
the Voice of Jesus Say," by Rathbun.
The service opened with "Lord of the
World's Above," with the "Church's
One Foundation" previous to the ser-
mon and closed on the theme of fel-
lowship.

Evening Service

At the evening service Rev. R. G.
Nicholls chose as his topic "No
Excuse" and stressed that Christian
living and God's will leave no room
for excuses. People can readily find
excuses for not obeying God's will but

a Christian must follow the command
and thus give service in the best way
possible.

The congregational hymns were
"Bless the Lord," "Lead Us Heavenly
Father" and "O Jesus I Have Promis-
ed." Mrs. Elliott chose a prelude by
Hensolt, for the offertory "The Even-
ing Hour" by Kuesner, and postlude,
"Jubilate Deo."

Stirling-Rawdon Choir
In Attendance

The Stirling-Rawdon District High
School Choir of 20 voices, under the
direction of Mr. E. C. Hay-Ellis, with
Miss R. Morrow as accompanist render-
ed "Tell Me the Stories of Jesus,"
Miss Lois Morton rendered "The
Lord's Prayer," by Malotte.

The anniversary closed on the
theme "O Give Me Grace to Follow
My Master and My Friend."

FINCH — In loving memory of a dear husband, Howard Finch, who passed away November 11th, 1960.

No morning dawns, no night returns, But that I think of you. Those left behind are very good. But none replaces you. Many a silent tear is shed When I am all alone. The one I loved so very much The one I called my own. — Lovingly remembered by his wife Mabel.

CANADA'S MOST FAMOUS APPLE

Travel across Canada from Atlantic to Pacific in almost any market when you pick up an apple chances are it will be a McIntosh. It is considered to be Canada's greatest commercial apple — a favourite for growers and consumers alike. It yields well, stores well, has an excellent taste and beautiful red colour — what more could one ask of an apple?

If its discoverer, John McIntosh, were alive today he'd probably be amazed to see how it has survived the competition from other varieties over the years and how it still outpaces some of its famous progeny — Courtland, Joyce and Melba.

A few weeks ago on the farm at Dundela, Dundas County in Ontario a plaque was erected to commemorate John McIntosh, the discoverer of the famous McIntosh apple. The apple was discovered as a seedling on his farm over 150 years ago. It enjoyed no more than a local reputation until around 1900 when it became a well established variety in Eastern Canada.

Today with improved storage methods, fortunately we can enjoy this apple from fall right through to spring.

The Consumer Section of the Canada Department of Agriculture has some tips on storing apples at home which they pass on to you: —

— Apples in bushel baskets or boxes are a good buy for a family if they have adequate storage facilities. Apples are ideally stored at 32 deg. F. but will keep for a fair length of time in a basement cool room of around 40 degs. F.

Apples like a cool, humid temperature so, to protect them from drying out, wrap the box or basket with perforated plastic. This allows the apples to "breathe" and at the same time keeps in the moisture.

Apples may also be repacked in perforated plastic bags and stored in a cool room.

Apples bought in small quantities keep their crispness and firmness best when stored in the refrigerator.

Cooking Comments

The Foods experts at Macdonald Institute, Guelph, suggest a way to keep leftover pastry dough fresh. Line an empty lard or shortening package with wax paper, insert the dough, fold over the paper and lid and put into your freezer until ready to use.

How many times have you put too much salt in the stew and not been able to hide the fact from your family? Next time this happens cook a few more potatoes with the stew and they will absorb the extra salt.

Now that the sunny days are shorter and the children are not receiving the sun's beneficial rays children should be given a good source of Vitamin D daily. This vitamin promotes proper bone and tooth development and is not present in sufficient quanti-

ties in our natural food to insure good health. So a dose of Cod Liver Oil or other Vitamin D preparation should be given daily; 400 I.U. is the recommended amount to keep children healthy.

Have you ever had little beads appear on that golden meringue after it has cooled? Chances are that the egg whites were not beaten enough after the sugar was added. Sugar must be completely dissolved in the whites before baking to give a light, fine textured meringue.

OF MANY THINGS

(By Ambrose Hills)

AUSTERITY HAS HELPED

Because it was absolutely necessary, the Canadian government reluctantly adopted austerity measures. Those measures have helped to increase employment. Our foreign exchange reserves are in better shape. Our economy has improved at a faster rate than that of the U.S.A.

Isn't there a moral to be drawn from this?

There is, of course. It has shown that what many economists have been saying is true: we need to quit living beyond our means. Once willing to do so, our future strength is assured.

However, it is unlikely that politicians of any stripe will want to continue these necessary measures very long. They prefer to spend freely and tax heavily. Common sense is not the most popular quality they feel.

They may be wrong. In my opinion, there are many voters who would back all moves to reduce expenditure and get our budget balanced. They know that only by self-discipline now can Canada build a solid and prosperous future. They have seen powerful nations such as Britain lose economic strength through over-spending, through attempting to provide for the citizens comforts that the citizens were not, as individuals, prepared to earn. Every Canadian with a touch of common sense has known for a long time that our spending spree could not go on forever without a day of reckoning.

A pump that must always be primed

is not good enough. There has been too much pump priming in Canada. We surely have learned our lesson. We have faced facts and reformed. To some extent, our tendency to overspend. Have we the gumption to stick with it until we can afford the affluence we have been affecting.

Emerson -- Howe Wedding of Interest

Baskets of white chrysanthemums and baby-white 'mums graced the sanctuary of Christ Church, Belleville, on October 27th at 12 o'clock noon, when Carolyn Frances, daughter of Mrs. Raymond E. Howe, Belleville, and the late Mr. Howe, became the bride of Mr. John Edward Emerson, son of Mr. and Mrs. Edward F. Emerson, of Holloway, Ontario, with the Rev. Everett P. Smith, assistant rector of the church, officiating.

The church organist, Mr. John Croymen Withers, rendered the traditional wedding music and accompanied the soloist, Miss Shirley Fisher, of Foxboro, in her rendition, prior to the processional, of "O Perfect Love" and "The Wedding Prayer," during the signing of the register.

Given in marriage by her uncle, Mr. James Howe, of Toronto, the petite bride was radiantly lovely in her floor-length gown of white peau de sole fashioned on classic lines with rounded neckline accented by embroidered Sweetheart roses. The long, sheath-like sleeves were lily-pointed over the wrists and the softly-belled skirt, which was enhanced by a detachable overskirt caught at the front by a self bow, cascaded into a chapel train. She wore a crown type iridescent beaded headress encrusted with seed pearls, with elbow-length veil of silk illusion tulle, and carried a cascade bouquet of red carnations, white stephanotis and trailing ivy.

She was attended by Mrs. Gordon Fuller, of Oshawa, as matron of honour, and by Miss Judy Lang, of Belleville, and Miss Ann Emerson, Holloway, sister of the bridegroom, as bridesmaids. All were attired in royal blue peau de sole, in ballerina-length, featuring bateau necklines, fitted bodices having three-quarter length sleeves. They wore pillbox type headresses in matching shade with front bows; matching satin shoes, white wrist-length gloves, pearl earrings and carried cascade bouquets of white 'mums and pink carnations mingled with ivy and tied by white satin bows.

Mr. Douglas Townsend, of Minden, Ontario, attended the bridegroom. The guests were ushered by Messrs. Paul and Raymond Emerson, of Holloway, brothers of the bridegroom.

The reception was held in Christ Church parish hall, where the bride's mother received wearing a two-piece ensemble in gold brocade in sheath style, with matching jacket, brown satin headress with tiny veil, brown accessories and corsage of white carnations tied with gold satin ribbon. Assisting also in the receiving line was the bridegroom's mother wearing a two-piece turquoise chiffon over net sheath, with white velvet hat, black accessories, and corsage of pink carnations tied with pink satin ribbon.

Mr. Frank Lang, of Belleville, was toastmaster.

The bride's table was appointed with white damask and centred by a three-tier all white wedding cake, topped with white wedding bells and lily-of-the-valley, and misted about the base with white tulle and tiny royal blue flowers. Lovely tri-branched silver candelabra with tall, white candles and the bridal flowers completed the nuptial setting.

For the wedding trip to the upper United States, Ottawa and Quebec, the bride chose a two-piece green double-knit suit, with white maribou hat, white gloves, black patent leather accessories, black Persian jacket, with mink collar and corsage of red and white baby carnations tied with red satin bow.

Among the honoured guests present were the bridegroom's grandmother, Mrs. Herbert Townsend, of Holloway; Mrs. George Anderson, of Trenton, and Mrs. Albert Howe, of Belleville, grandmother of the bride.

Others present were from Belleville, Toronto, Perth, Holloway, Wooler, Carrying Place, Trenton and other neighbouring districts.

The bride, prior to her marriage, was the honoured guest at two miscellaneous showers, one which included a dinner at the home of Mrs. Geo. Balazs, of Belleville, with Miss Jane Ann Thompson as co-hostess, given by the girls' staff of the Ontario Intelligence. The others at the home of Mrs. Roy Cronkright, nee Sandra Fisher, with Mrs. Ross Fisher as co-hostess; at a presentation from the bride's co-workers at the Ontario Intelligence, of an electric kitchen clock. The bridegroom was also presented with a three-tier gold combination server from the teaching

staff of the Prince of Wales School, of which he is vice-principal.

Mr. and Mrs. John Emerson are residing at 284 Albert St., Belleville.

PROOF OF MORE JOBS (Ottawa Journal)

No matter how the politicians argue about the unemployment there is one sure barometer showing there has been improvement.

The Unemployment Insurance Fund is the most overburdened fund in Ottawa. Yet it has gained ground, strongly this Summer and Fall, gaining so much that it may be able to carry itself to the end of the fiscal year without having to draw on a special contribution from the Government.

The fund has been abused, illegally, by those who have collected benefits they did not deserve, and legally, by governments which gave it loads it was never designed to carry.

In 1955, for example, the seasonally unemployed were brought within the act. It took no genius in mathematics to work out that they would be a drain on the fund. For them unemployment was something to be expected, not a disaster the year-round worker hated to contemplate.

A year ago, Labour Minister Starr gave an illustration of how the fund was abused. A bush worker at the Lakehead told him he had never worked in the wintertime for 12 years but had made \$7,000 during the summer. He was not working in the winter and when Mr. Starr said that was too bad he had this reply:

"It's not too bad. I am drawing unemployment insurance."

The Government has tried to cut down abuses and there may be further help for the fund in the report of a committee which has studied the Unemployment Insurance Act. But employment has so improved that the fund battered and abused, has been able to make substantial progress. In May, after a hard winter, it was down to \$20,000,000 and had built up to \$59,000,000 at the end of August. With luck, it will have perhaps \$100,000,000 at the end of November. That would still be a long way from the \$900,000,000 or so it had in its palm-fest days but it would be enough to let it go into the winter and new demands in good spirits.

No one has ever pampered or respected the Unemployment Insurance Fund. Its recovery is clinching evidence that the figures of reduced unemployment mean what they say.

Windsor Site For New University

Premier John P. Roberts has announced that a non-denominational university, eligible for provincial grants, will be established in Windsor next year. It will result from the federation of Assumption University, to the present ineligible for provincial grants, and its non-denominational constituent, Essex College. The university, which will be under a non-denominational board, will qualify for Government assistance in capital and operating costs. The new university will have faculties of arts and science, applied science and graduate studies, together with schools of business administration and nursing.

THE BIBLE TODAY

Bible Study in Canada is on the increase, reports Rev. F. E. Vipond, Director of the Canadian Council of Churches project on the Use and Understanding of the Bible. Fifty six workshops have been held across Canada in Churches of many denominations, reaching some 4,000 people.

Mr. Vipond believes from his experience that relevant and thorough Bible study will feed and strengthen Christian people. "There is need for Bible Study", states Mr. Vipond, "and should be closely linked with the Church's Mission of Evangelism."

Defining effective Bible Study as "that study of the Bible in which men meet with God, and answer in response to Him, the Word addressed to them", the Rev. E. H. Robertson, the Study Secretary of the United Bible Societies, has recently written a book on Methods of Bible Study (SCM Press). "The real search" writes Mr. Robertson, "is to find a way to hear God in our study of the Bible".

Encouraging reports are being received of a wider use of the Bible for study in Germany, Britain and North America. Some branches of the Christian Church are emphasizing Bible Study projects throughout 1962.

NEWS FOR THE BUSY FARMER

Furrow and Fallow By Fairbairn

Ontario Milk Producers have given up on their over-all marketing plan. The provisional board dissolved last Friday after passing a resolution requesting Ont. Minister of Agriculture Stewart to ask the federal government to set up a Royal Commission to investigate all phases of the dairy industry in Canada. This capped a week of hectic activity in dairy circles including the provincial government's announcement of a moratorium on the milk price formula announced recently that would allow an increase of 19 cents a cwt. to the producer. All the confusion, misunderstanding and just plain stubbornness in some quarters certainly points to the necessity of something that could clear the air. Perhaps as suggested in this column six weeks ago, a federal

Royal Commission could be the answer.

At any rate, the four main producer groups in the province have now asked for one. Agriculture Minister Stewart has received the request but has not commented on it. He is speaking to the annual convention of the Ontario Federation of Agriculture Nov. 12th and one might expect him to say something about it then. One might also expect him to receive the recommendation favourably. Ottawa has been pushing the provinces of Ontario and Quebec for some action to help solve the dairy problem and Agriculture Minister Hamilton put it plainly to producers recently. Mr. Stewart pressed Ontario producers into action soon after he took office last winter and the provisional board was officially formed May 1st this year. In its six months, it has achieved little and now it no longer exists.

In effect, the producers have thrown

up their hands and told the minister and the government that they can do nothing so it's up to Mr. Stewart. With a provincial election in the not too distant future, no government would want to act hastily on such an involved problem as that posed by the dairy industry — nor should they. So, a thorough airing of the situation which might be expected from a federal Royal Commission could be welcomed by Mr. Stewart. Similarly, Mr. Hamilton could be facing the electorate at any time and might also welcome this action. On the other hand, his situation — politically — is somewhat different. Quebec, the other major dairy province is in the midst of an election with no possibility of electing a government friendly to Ontario. British Columbia has a vexing dairy situation within its own boundaries and also a government that is not noted for co-operation with Ottawa. We don't envy Mr. Hamilton his job.

Ontario government action on the milk price formula was prompted by the threatened increase of one cent a quart in the consumer price of milk in some urban centres. Even had producers received the 19 cents per cwt. increase allowed by the price formula, that alone would not justify a one cent increase in the retail price per quart. There are 38 quarts in a cwt. of milk. However, other factors would justify the price increase — things such as increased labour costs to the distributor and generally higher production costs in pasteurizing, bottling and so on. Undoubtedly, a Royal Commission would examine this price formula.

Just to make things very merry last week, the Ontario Cheese Producers Marketing Board presented a brief to the minister asking for revisions in the milk industry act that would, in effect, remove the protective sections for the fluid producers. It is this simple but might be interpreted as requesting that any milk market be open to any milk producer who could meet quality standards. So, we have one group of producers trying to snatch the rug from under another. Not exactly indicative of a big, happy family, is it?

Beef Producers To Reorganize?

The Ontario Beef Producers' Association has recommended to its County associations the acceptance of the proposal of Hon. Wm. A. Stewart, Minister of Agriculture, that the beef producers organize along the lines of the Ontario Soil and Crop Improvement Association. Following consideration of the suggestion on a County basis the proposal will go before the annual meeting of the producers to be held next year.

The Minister of Agriculture suggested that the reorganization would stimulate the work of the beef producers. Under the new set-up the Department of Agriculture would provide financial assistance and the services of a full-time secretary. It has also been suggested that the name of the Association be changed to the Ontario Beef Producers Improvement Association.

Discussing the reorganization, President L. B. Mehlenbacher said that the Association had no desire for a marketing plan although he would not for a moment say that such an approach was not desirable for certain other farm products. He was sure that the beef producers could develop an organization which would allow them to operate without outside help.

Offering the assistance of the Department of Agriculture, Everett M. Biggs, Deputy Minister, said that he was aware of the responsibility of the department to all segments of agriculture. He suggested that if production techniques were not improved the producers could not achieve the marketing results that they wanted. He was confident that the reorganization being discussed would work to the advantage of the producers.

Mr. Biggs said that the beef producers were handicapped owing to the fact that the association did not have a broad membership and lacked a permanent office and full-time secretary.

"This proposal is a result of requests from your own members who are telling us more should be done for your industry. We are not suggesting that you should have such and such an organization. That is a decision for you to make. We merely hope to assist," said the Deputy Minister. "Reorganization along the lines suggested would place the department in a first class position to help the industry."

Between 1954 and 1960 the proportion of Canadian women realizing the importance of early treatment of cancer rose from 80 to 87 per cent. The improvement was largely due to the education programme of the Canadian Cancer Society.

BOOBY TRAP DISCOVERED

A two pound fish, a piece of wire, two batteries, two sticks of dynamite and cap, apparently rigged to kill a bear could easily have resulted in rocketing conservation officer Robt. Ramsbottom of the Bancroft Ranger Division into orbit last week.

This weird and most dangerous trap was discovered by Officer Ramsbottom during an investigation at a site on the west shore of Kamaniskog Lake. The officer picked up the fish that was strung from the limb of a tree by a wire before he discovered the wire holding the fish was attached to batteries and trigger circuit. Fortunately he let go of the fish before he pulled on the wire as he was standing upon two sticks of capped dynamite hidden among the rocks and leaves at the base of the tree.

O.P.P. officers along with Mr. Ramsbottom dismantled the trap and later tested the device for efficiency after the dynamite was removed. The test left no doubt that the device was in operating condition as a pull on the wire set off the cap.

The investigation is continuing and charges for setting this dangerous trap are expected to be laid.

The Good Driver

Russians may be particularly good car drivers, the Ontario Safety League believes. They have at least one exceptional attribute.

The Russians are noteworthy in many ways. It would be out-of-place to start a discussion on this here. But in relation to car driving it is worth considering their addiction — and almost unchallenged pre-eminence — at the game of chess.

An essential of good chess is the ability to foresee both the probable and possible moves of others, well in advance. To foresee them — and to forestal them, if they threaten danger.

Similarly, good drivers "drive ahead." While they are dealing with one situation, they are anticipating others. They try to plan their own moves, and the moves of others, as far in advance as possible. And they never overlook the need for defence.

"Leave yourself an out!" sums up the outlook of a good defensive driver. He tries always to be prepared for the unexpected. His main de-

fence is to ensure he always has adequate stopping distance ahead — and, if practicable, swerving distance to one side — to avoid danger from any possible traffic development.

The parallel between chess and driving cannot be taken too far. The Ontario Safety League stresses that there should be no element of competition in driving, while chess is a contest with the ultimate aim of tying up the opposition so that it cannot move at all. But it must be admitted that Ontario motorists sometimes feel that

winter driving in this sort of competitive struggle... with the weatherman on the other side of the board playing white.

old. Her home was the scene of many happy family gatherings and a place where friends and the friendless were always welcome. She was a charter member of Ivanhoe W.I.

An accomplished needle woman, she was a tireless worker for the Red Cross in war time. She was a member of Beulah United Church and when health permitted was a regular attendant and took an active part in church and community activities.

Mrs. Clements not only made a happy home for her husband and daughters, but quite often opened her doors to relatives who were sick or lonely. Annie Clements will be long remembered for her kindness, her generosity and loyalty. The sympathy of this community is extended to her sorrowing family.

E.M.O. Meets Sunday At Community Hall

Did you know that one of the missiles based in Cuba by the Russians, if fired, would reach the city of Montreal in approximately three minutes? How much time would this leave you to make even the barest plan for survival?

The start of a nuclear attack would be a most carefully guarded secret. The government has advised us it is unlikely that any long-range warning of attack can be given. During periods of great world tension it is up to people as individuals to judge what survival preparations they should make. Should a period of tension develop it would rest with the individual to look out for his family and himself.

The local Emergency Measures Organization will hold another public meeting in the Community Hall this Sunday at 2.30 p.m. The subject to be discussed is "Fallout Shelters." Most people, when they think of fallout shelters immediately think in terms of hundreds of dollars. This is in error. A most satisfactory fallout shelter can be obtained very likely from existing structures on or near your premises.

The meeting this Sunday, November 18th, in the Community Hall, will also be given a report of further action contemplated by the local Emergency Measures Organization. It is most important that as many of the general public as possible should be present to hear this important report of future plans. These plans will affect every member of our community and area.

Next-of-kin of Local Men Honoured Guests At Stirling Legion Tea

On Sunday, November 11th, Stirling Branch No. 225 of the Royal Canadian Legion was host to some thirty-five guests at a reception in the Legion Hall. The guests were the next-of-kin of many local men who gave their lives in two world wars. Other guests included the reeves and their wives of the Village of Stirling and the Township of Rawdon, as well as the clergy and their wives representing Stirling and district.

The guests were met at the entrance by Comrade 1st Vice-President Allan Lawes and Mrs. Lawes. Presiding at the tea table were Mrs. Gilbert Finkle, wife of the Branch President, and Mrs. Bert Bastedo, wife of the Immediate Past President. The table featured a floral arrangement of red carnations and white mums.

Other branch officers and executive members acted as hosts for the occasion under the direction of Comrade 2nd Vice-President William McMullen. A large number of wives of branch members assisted in the preparation and serving of tea.

Local Residents Injured

Three local residents, Mr. and Mrs. Oscar Clapper and Mrs. Maude Runnalls, were injured when a car in which they were travelling was struck broadside on Highway No. 33 about two miles south of this Village, on Sunday afternoon. According to police Mr. Clapper was turning on the Highway near Hadley Richardson's residence when his car collided with an automobile driven by Edmund D. Fleming, 20, of Springbrook.

Dr. Peter Briggs gave medical aid and the injured were taken to Belleville General Hospital by Duffin's Ambulance. Mr. Clapper, who suffered bruises and chest injuries, and Mrs. Clapper, with a broken pelvis and bruises, were admitted as patients, while Mrs. Runnalls, who suffered knee injuries, was released after treatment. Latest report is that Mr. Clapper will be returning home soon but Mrs. Clapper will be in hospital somewhat longer. Mrs. Runnalls was able to return to work on Wednesday.

The prizes were as follows: Ladies' high, Mrs. Glenn Morrow; ladies' low, Miss Ruth Morrow; men's high, John Kane; men's low, Bert Bedford. Several of the young fry assisted in serving refreshments.

42nd Birthday Anniversary Observed By Laurel Rebekah Lodge, No. 211

Laurel Rebekah Lodge, No. 211, observed their forty-second anniversary by partaking of a sumptuous banquet provided by Salem U.C.W. on Tuesday evening of this week.

About 100 sisters and brothers sat down to prettily decorated tables with centrepieces of mums and butterfly serviettes and place cards. The head table was centred with a 3-tiered birthday cake with 42 pink candles and was flanked by large pink candles in candelabra.

Seated at the head table were J.P.N.G. Sister Hilda Rose, with Deputy Grand Master Bro. Earl Fox at her right and N.G. Sis. Joyce Richardson at her left; also V.G. Sis. Gladys Sine, Chaplain Sis. Helen Hulin, P.N.G. Sisters Isabel Good and Hazel Mumby and the two charter members able to be present, Sis. Alice and Bro. Karl Sine.

Sis. Isabel Good very capably introduced the guest speaker, Bro. Earl Fox, Deputy Grand Master of Ontario. Bro. Earl brought greetings from Grand Lodge and the Grand Master. He spoke on Rebekah Oddfellowship and stated that he had visited many Rebekah Lodges in the jurisdiction of Ontario and also of Sovereign Grand Lodge and he could say without flattery that Laurel Lodge was the best in following the principles of the Order.

He reminded that two days ago services were held throughout the land in memory of thousands who had given their lives for these principles in two world wars. He exhorted his listeners to keep faith with them and hold high the torch, thereby maintaining the heritage of the founders of our country and of our Order.

P.N.G. Sis. Hazel Mumby expressed

gratitude on behalf of the lodge to Bro. Earl for his words of inspiration and encouragement and wished him success in his new office.

Regular lodge meeting was held following the supper. During the opening ceremony Sis. Jean Pollock sang "My Task" accompanied by Sis. Laura Shortt.

After Lodge the members were invited to the dining hall where coffee was served.

The birthday candles were lighted by two new members, Sisters Helen Thompson and Doris Sine. Sisters Dorothy Summers and Muriel Sharpe blew out the candles and the two charter members, Sis. Alice and Bro. Karl Sine cut the cake. There were seven other new members honoured, Sisters Ada Keating, Dorothy Flindall, Wilma Glover, Valerie Mattson, Violet Rose, June Wood and Bro. Orme Sharpe.

The Past Noble Grands were also honoured.

The Past District Deputy Presidents present were Sisters Ethel Duffin, Gena Spry, Evelyn Bailey, Edna Fox and Mary Hulin. P.D.D.P. Sis. Evelyn Bailey brought greetings and P.N.G. Sis. Stella Graham, of Riverside Rebekah Lodge, No. 151, Port Credit, brought greetings from her lodge.

J.P.N.G. Hilda Rose thanked all who helped make the birthday party a success and presented the lodge with a lovely clock.

Punch and delicious birthday cake were served by the committee.

The two charter members unable to be present, Sisters Jennie Burkitt and Mabel Megginson, will be visited on Wednesday and presented with flowers.

Memories were revived in the community singing led by Comrades George and Fred Heasman and Bob Patterson.

Comrade Fred Houchin, in his own inimitable manner, introduced the guest speaker, W. E. Donaldson, of Trenton, Past President of Trenton Branch and Past Zone Commander.

Comrade Donaldson expressed his pleasure in accepting the invitation of Stirling Branch to participate in their Remembrance Day observance. He brought the greetings of the Trenton Legion.

In his address, Comrade Donaldson said that in some quarters the observance or Remembrance Day, and even the existence of the Legion was being questioned, but that the services performed by the Legion — not only for the ex-servicemen, but in educational and sports programmes sponsored in local communities, more than justified our efforts.

Comrade Donaldson was thanked on behalf of the members present by Comrade George Noble.

Do You Remember?

TWENTY-FIVE YEARS AGO

ISSUE NOVEMBER 11th, 1937

Hadley, local coal and wood merchant,
suffered a broken right collar-
bone on Tuesday morning when he
was crushed between a trailer and a
truck.

Chas. Mitchell, veteran member of
Stirling Citizens' Band, won a beautiful
silver cup at the military tattoo,
held recently in Belleville, for being
the oldest bandsman participating.

D.D.G.M. H. E. Hulin and his of-
ficers paid an official visit to Thom-
asburg Lodge on Friday night and in-
stalled the officers. Members of the
installing team, besides the District
Deputy, were J. B. Thompson, R. E.
Fox, W. L. Anderson, Alex Park, Wm.
Patterson, E. Carlisle and J. M.
Magee.

General Meeting St. Paul's U.C.W.

The General Meeting of St. Paul's
United Church Women was held in the
upstairs Sunday School rooms on
Tuesday evening, November 6th, with
45 members and 3 visitors present.

The decorative theme was in keep-
ing with Remembrance Day. A mini-
ature Flander's Field with white cross-
es, wreaths and poppies strewn among
autumn leaves brought to mind the
price the soldiers paid on the battle-
field for us and we are still in deep
debt.

Mrs. D. Duffin and Mrs. B. Patter-

son greeted the ladies as they arriv-
ed.

Mrs. Duffin, President, opened the
meeting by reading hymn 369. In the
absence of Mrs. P. Utman Mrs. Duffin
reported 58 calls made since the
September meeting. Mrs. E. Eggle-
ton asked that all church books be
returned within a week.

The next General Meeting will be
December 4th at 8 o'clock. A fine
Christmas program is being planned
and a good attendance is hoped for.

Orders for the church calendar are
to be left with Mrs. D. Duffin.

Mrs. B. Faulkner had charge of the
worship service which was on
Health and opened by reading a
health prayer. She was assisted by
Mrs. Glenn Bush who read the Scrip-
ture taken from Matthew 8: 1-17. All
sang hymn 15, after which Mrs. H.
Waite led in prayer.

In the meditation Mrs. Faulkner
emphasized the necessity for rest. In
music rests are a very real part; so
also in life whether spiritual, mental
or physical. Jesus led a busy life yet
often retreated to the hills to rest. It
is in quietness that we hear his still
small voice.

Mrs. J. Hough and Mrs. C. David-
son collected the offering which Mrs.
Faulkner dedicated.

Mrs. J. L. Good brought thoughts
of Remembrance Day and pointed out
that unless we make God our Hope
for years to come, the terrible sacri-
fices they made for our Peace will
have been in vain. Mrs. Glendinning's
solo, "My Own Dear Land," was
greatly appreciated. She was accom-
panied by Mrs. H. West.

Mrs. B. Patterson's paper on
"Health" impressed on her listeners
that they never stop to think of the
wonderfulness and complexity of the
human body and that it is our christi-
an duty to obey health rules.

It was at this point that Dr. Wm.
Hipwell, the guest speaker for the
evening, showed a film on Cancer
which were most instructive. He
made them more so by his talk before
showing the film and by so willingly
answering questions afterwards.

Mrs. E. Warren, on behalf of the
group, thanked Dr. Hipwell for com-
ing as he is a busy man and bringing
such a fine talk on a much-needed
topic.

Hymn 559 closed the meeting.
Dainty refreshments were served by
Unit 6.

Energetic Bowlers

High single and triple went to
Verna Woodbeck with scores of 279
and 690. Other good scores were
Earla Crossman 244 and 222, Ruth
Warner 244 and 206, Gladys Richard-
son 207 and 203, Lenora West 224, 209
and 206, Verna Woodbeck 243.

Team standings — Nora's Thund-
erbirds, 28 points; Jane's "Galax-
ies," 22; Ruth's "Metecors," 18 points;
Hilda's "Corvettes," 16.

AN OPEN LETTER TO THE PEOPLE OF STIRLING

Stirling, Ontario,
November 15th, 1962

As you are no doubt now aware I am acting as manager for the "No" com-
tee on the Liquor and Brewers Retail store plebiscite that comes before the people
of Stirling on December 3rd.

Before too much is said and before too many opinions are formed I would
like to set out in clear form the issue that is before us in this vote and my own
reasons for acting as manager for the "No" committee.

To start with this is not a vote on Temperance, it is not a contest between the
"Wets" and the "Drys", it is simply a question of having or not having stores for the
sale of liquors and beer in Stirling. This is the question and no other.

It is being argued that a store would be good for business and that many of
the surrounding communities have them and so we might just as well, also, that the
people who wish to drink will get it anyhow. I would answer these people by first of
all saying that to say it's good for business is not true. I have talked to business
men in surrounding communities and they tell me that much of the money that would
ordinarily be spent in the local places of business finds its way to the liquor store. Let
us assume that it is good for business (which has not been proven and I for one cannot
for one moment make myself believe that it is) do we sell what we believe right for
dollar bills ? ? ?

I would agree with those who say that those who wish to drink will get it
anyhow. That's their privilege — but these people have been getting it all along.
After all it's only a twenty minute drive to Belleville or Marmora. I am not for prohibi-
tion nor do I judge those who do drink.

The reasons I am against these stores in this community are as follows:

1. In town after town where retail stores have been established beverage
rooms and cocktail lounges soon follow. Already some who are promoting stores here
mentioned that we also should have cocktail lounges. Then of course comes beverage
rooms. Stores are only the thin edge of the wedge.

2. We are establishing in our young people's minds that drinking is the
modern way of life. That a modern town needs a good Post Office, Library, Doctor,
Dentist, etc. and a liquor store. The sad part of this is that many of those who seek
to promote this business in this town would be horrified if their own young people
were drinking.

3. I am concerned about a way of life which says that because a certain thing
is being done by other people that we should all go along. Is anything worth standing
up for today? We have become a people who will go along with anything if it's
popular, or else like Pilot we wash our hands of the whole matter.

4. Finally, I believe that Stirling is one of the finest communities in this part
of the country. I don't think that we as citizens of this community should promote
anything within our community that does not better community life. If anyone can
show me how a liquor and brewers retail store will make Stirling a better community
to live in and bring up our children in then I'll gladly change my position. This is the
question that each citizen will have to ask himself when he marks his ballot December
3rd. Will this make Stirling a better community and will our young people become
better citizens?

In the last plebiscite some six years ago the request for a store was turned
down by a large majority. (I understand over 60%). The issue has not changed since
then and I believe that the people in Stirling will still do what they know to be right.

Yours truly,

D. R. WILLIAMS

The service was conducted by Mr. Thos. Dodds, a veteran of two World Wars, who also served as Chaplain in Toronto hospitals.

Twenty members of the Madoc Branch of the Royal Canadian Legion and members of Huntingdon Veterans' Club attended. The parade was marshalled by John Bristol, Madoc, and headed by the colour parties.

The minister extended a warm welcome to the veterans and their families. The theme of Mr. Dodd's inspiring message was "Righteousness and Peace," using as a text John 15: 13 — Greater love hath no man than this, that he lay down his life for his friends.

Mr. Wm. Reynolds, a member of Stirling Legion, sang with fine voice "There Is No Death."

A memorial service was conducted by veterans Harry Lovibond and Reginald Haggerty. A reading was given by Reg. Haggerty, who also read the names from Huntingdon Township Honour Roll of those who made the supreme sacrifice.

The Last Post and Reveille were sounded by bugler John Hicks, of Madoc.

Harry Lovibond spoke briefly and the service closed by singing "Abide With Me." The Queen and benediction.

Mrs. C. Watson Hostess U.C.W.

Mrs. Craig Watson was hostess to the ladies of Wellman's United Church Women on Tuesday, November 6th. There were 14 adults and 4 children in attendance.

The President, Mrs. John Carlisle, gave a brief introduction, followed by everyone singing the hymn "Come,

Holy Spirit, Heavenly Dove."

Mrs. Carlisle introduced the worship service with the theme "The Church." Mrs. Douglas Clancy read from the Bible John 16: 1-17 and Mrs. Omar Dracup offered prayer. The hymn, "Spirit of God Descend Upon My Heart," was sung. The offering was received and dedicated by Mrs. Carlisle.

The minutes read by the Secretary, Mrs. Ken Tompkins, were approved.

Mrs. Tompkins then read the correspondence, including a thank you letter, a letter from Victor Home and notice of the workshop in Trenton. It was decided to contribute to the Victor Home. Mrs. Douglas Clancy was advised to send the remainder of the allocation, bringing the total to \$175.00.

Wellman's U.C.W. will cater to the Board's sale on December 3rd. A committee was appointed to convene

this sale, including Mrs. G. Russell, Mrs. J. Carlisle and Mrs. D. Clancy.

Mrs. G. Russell and Mrs. J. Pollock were appointed auditors for 1962. Rev. W. G. Fletcher conducted the election of officers for 1963. The slate of officers prepared by Mrs. Byron Seeley, Mrs. Jim Pollock and Mrs. Jack Dunham was accepted.

Mrs. Frederick Beckett favoured with a solo, "Who Will Our Pilot Be?" with guitar accompaniment. Mrs.

Douglas Clancy gave a reading entitled "One Precious Hour." Mrs. Omar Dracup gave a reading beginning "Thou Shalt Love Thy Neighbor as Thyself;" also emphasizing "The Golden Rule."

Rev. W. G. Fletcher conducted the Bible study with the theme "The Church." Both good and bad points of our churches were brought out. The nature and necessity of our church was discussed. Mrs. Fletcher read a short Bible passage in connection with the study taken from the 12th chapter of Corinthians.

Miss Emma Rainie read a letter from "Hasten the Days" entitled "The Second Harvest." The story told of an elderly minister who did not feel his days of necessity were over and put the remainder of his life travelling from one place to another starting new churches. At first services would be held in homes or portable buildings, each time to be followed by the building of a new church. After completing their mission in one place, he and his wife would move on to do likewise elsewhere.

Mrs. Carlisle closed the meeting with prayer. Mrs. Craig Watson and her assistants served refreshments and a social half hour was enjoyed.

\$600,000,000 FOR ONTARIO

The people of Ontario can make a \$600,000,000 present to themselves in one year by reducing their spending on imported goods by \$100 per person. This action on the part of every person in the province would help create 60,000 new jobs.

We are the world's greatest importers of manufactured goods. Contrast our yearly total with that of other countries:

Americans spend \$35 per capita.

The British spend \$75...

West Germans spend \$60...

Canadians spend \$235 per person per year on manufactured goods.

If these expenditures in Ontario on imported goods could be reduced by \$100, we would still be amongst the world's greatest importers. If that \$100 were diverted to Canadian goods we would add \$600,000,000 to our economy and help create 60,000 new jobs!

To accomplish this, the consumer must become "label conscious"; it is the sum of all our day-to-day purchases which can add up to the success or failure of our economy. Whenever the consumer reaches out for an imported product, he or she should ask, "Is there a Canadian equivalent?"

For in most cases there is a Canadian product that is as good or better. The more money we spend on things we make, the more prosperous the people of Ontario will be!

PROVINCE OF OPPORTUNITY

NEWS FOR THE BUSY FARMER

Furrow and Fallow By Fairbairn

The day before the Ontario Milk Producers' Provisional Marketing Board held its final meeting the 'Cheese Producers Board' (who were also represented on the provisional overall board) presented a brief to the minister of agriculture asking the provincial government to "rescind the legislation which protects whole milk shippers and gives them an unfair advantage over other milk producers in the province." This change would give many other farmers who are presently producing grade A milk an opportunity to participate in the lucrative bottled milk trade, according to the cheese producers, and would greatly assist in the elimination of dairy surpluses.

Cheese producers — and some other milk producers — are afraid the recently announced 19 cent per cwt. price increase to producers (which is not yet in effect) could reduce the consumption of fluid milk and thereby increase current surpluses. If retail prices went up, it is possible people might drink less milk and the cheese producers brief says Ontario's whole milk producers already "have added greatly to the federal government's butter surplus." Whole milk shippers will deny this and there are no figures available to support either contention. The Ontario Farmers' Union has criticized the government's moratorium on the formula price increase because production costs are going up and they feel farmers are entitled to a price increase. Feed costs alone have gone up six

cents per cwt. of milk. The cheese producers also maintain that surplus fluid at about half the price of milk is being used to produce some varieties of cheese. They claim the quota system is not necessary today in order to maintain continuity of milk supplies for the fluid trade. Also, since representatives of fluid producers assured the federal government they would devise a marketing plan that "would establish a voluntary system of helping to eliminate surplus dairy products" which has not been done, the cheese producers would like to have the Ontario government take action.

The cheese group also announced support for recommendations made in the MacFarlane, Wood, Carncross report on milk marketing made early in 1961. They would also like to have the four dairy producer groups presently in existence retained under any milk marketing plan.

Representatives of the eastern agricultural conference who came from the Maritime and Ontario Federations of Agriculture, the LCC, Co-op Federees and Farmers' Association of Quebec had a meeting with the federal minister of agriculture last week. They pressed for a continuation of the federal feed assistance policies and their extension to Ontario corn and wheat. The big problem, according to this group, is the inadequate movement of feed grains into eastern Canada before the close of navigation which results in higher prices to farmers during the winter months. They would like the federal government to offer some assistance on storage charges at the lakehead and in grain stocks still not sold in eastern

Canada by the opening of navigation. Agriculture Minister Hamilton has announced the government's intention to introduce new policies concerning storage of feed grains.

The conference also requested programmes to stimulate beef production in eastern Canada, reinstatement of the three dollar hog premium and the full programme of lime assistance, stricter control of garbage feeding of hogs to prevent hog cholera, quarterly rather than annual deficiency payments on lambs and reduction in freight rates between western and eastern Canada. They also asked the federal minister for some special help for maritime farmers who had the worst weather in their history this year and suffered disastrous losses in hay and other crops.

LEGION NOTES

The Stirling Branch of the Royal Canadian Legion held its regular November business meeting in the Legion Hall last Tuesday, November 6th. The main purpose of the meeting was to nominate candidates for Legion office for the year 1963. The election of officers will be held on Tuesday, December 4th. All members of Branch No. 228 are requested to make a special note of the date of this most important meeting.

Additional nominations may be made at the meeting on December 4th. Prior to the election of officers all nominees will be afforded time to signify their intentions. To be a candidate for office, a member must either be present at the meeting, or signify in writing that he is prepared to run for the office in question.

Nominations are as follows:

For President — Allan Lawes, William McMullen

For 1st Vice-President — William Reynolds, William McMullen, D. Patterson

For 2nd Vice-President — Elwood Wilson, Bruce Glendinning

For Secretary — Bert Bastedo, William Reynolds, Jim Jarvie, Bruce Glendinning

For Treasurer — George Noble

For Executive — Fred Houchin, Fred Heasman, George Heasman, G. Fortner, R. K. West, R. D. Cooke, W. De Jong

It was pointed out that in the past the Branch has not held strictly to its by-laws concerning elected officers. One instance cited was the by-law which states that no officer or executive member may miss more than three consecutive meetings, either of the executive or general membership. Should this occur, the officer is automatically out of office. It was suggested that all prospective nominees should be made aware of this by-law.

The focus of Legion activity will shortly switch to the local arena for the winter season. Considerable work is required to put the arena into top shape for a busy season. A caretaker must be found and arrangements made for him to be prepared to commence flooding operations at the earliest possible time. The ice surface requires some work, and the water system and hose also require checking to see that they are in order. Members will very shortly be asked to give an hour or two of their time to this important work.

Plans are also being made to hold a special minor sports night at the local Legion Hall. The purpose of this event is two-fold:

(1) To organize and register all players wishing to take part in the local Squirt and Pee Wee Hockey League which is sponsored by the Legion each year.

(2) To honour the 1962 Pee Wee Softball teams who participated in the

Members of High School Staff Successful in Summer School Course

Regular Meeting Stirling- Rawdon District H. School Board Held On Monday

Three members of the staff of the Stirling-Rawdon District High School were successful in their respective summer courses this year, according to an announcement by Principal J. L. Good at the regular monthly meeting of the Stirling-Rawdon District High School Board Monday night. Miss E. Wallace was successful in her first year summer course; Mr. S. L. Alcorn his second year course giving him an intermediate type B certificate, and Mrs. F. Lyons, her course in home economics, giving her an intermediate type B certificate.

Dr. R. B. Murray presided and was supported by Messrs. H. Morrow, R. Mallory, D. Rodgers and James Johnston.

Mr. Morrow reported that a base for a flag pole had been constructed in front of the school.

A communication from the Bay of Quinte District High School Board advised the Stirling-Rawdon Board that the former would assume the cost of education for three pupils from the Oak Lake area until December 31st, 1962, and in the event this area were not included in the Stirling-Rawdon District Area by the first of January they would assume the costs until June 30th next, at which time the matter would come up for further discussion.

Mrs. Phyllis Camm wrote the Board suggesting the rate of pay for supply teaching at the local school should be increased.

Repairs Needed

Joe Irish, caretaker, enumerated a number of repairs which were required including the time clocks. The latter had been given attention by a representative of the manufacturing firm, but he had failed to correct the trouble. He also reported that a student had kicked a hole in the wall in the boys' shower, for no apparent reason.

Referring to the latter incident, Principal Good stated the parent of the boy had been notified and had viewed the damage. The Secretary of the Board was instructed to advise the parent that he would be assessed the costs of the repair work.

Permission was granted Mr. Irish to use the gym for the Cub party on December 10th, when the parents are entertained.

The use of a class room or lunch room was also granted for a St. John's Ambulance Course for Boy Scouts and a number of Girl Guides one night each week for six weeks.

Inspectors Visit School

Principal Good reported that District Inspector Froats, Kingston, had visited the school in October and Mr. Latimer, who inspects English, was at the school Wednesday and Thursday last.

He made requisition for a transistor radio, which will be purchased. Dr. R. B. Murray outlined the steps to be taken at the school in case of a nuclear attack or other emergency and advocated the institution of a proper alarm system and student drills.

The matter of the salary of supply teachers was discussed and in future qualified personnel will receive \$15 per day if presiding and \$23 per day if conducting classes.

D. W. Rodgers was given authority to have plans drawn for a poultry house to be used in teaching agriculture and prices will be submitted at a later meeting.

The following accounts were presented for payment:

Livsey's Red & White, \$68.19; Stirling News-Argus, \$7.29; Maund's Service, \$12.26; Argosy Carriers, \$2.25; Mouck's Hardware, \$66.39; A. Reid Enterprises, \$45.35; R. E. The hostess was Mrs. Douglas Plumptre and there were thirty-five ladies in attendance. A year ago Mrs. MacMullen organized this new branch and they have had wonderful success during their first year.

Local Scout Chosen As Representative At World Jamboree

Bill West, a member of the Stirling Boy Scouts, has been selected as the representative of this region on the Canadian Contingent to 11th World Jamboree, to be held at Marathon, Greece, August 1st to 11th, 1963, according to an announcement from L. C. Wilcox, Field Commissioner, Cobourg.

Bill is a son of Mr. and Mrs. C. E. West, 157 Edward St., and his selection is a fine tribute to his popularity and devotion to scouting.

He will attend a pre-camp jamboree when the Canadian Contingent will assemble for instruction on the history, customs, culture and geography of Greece so that Canadians will have some knowledge of the country, and leave by air from Montreal to Athens, Greece, July 29th or 30th. The return flight will leave Athens August 19th or 20th and arrive Montreal, August 21st.

The News-Argus joins with his many friends, Scout officials and members of the local patrol in extending congratulations on his selection and wish him well in his new scouting experience.

Mrs. G. W. Jones Celebrates 80th Anniversary

The sons, daughters, grandchildren and great grandchildren of Mrs. G. W. Jones, Front St. West, Stirling, held a birthday dinner at Rainbow Lodge, on the Trent River, Saturday evening to celebrate her birthday anniversary. There was an attendance of twenty-five.

A beautiful bouquet of bronze and golden chrysanthemums graced the head table along with a nicely decorated three-tier birthday cake, made by her daughter, Mrs. J. Palmer, and trimmed with eighty candles and a bouquet of baby orchids. Several pictures were taken, including one of Linda Jones, of Toronto, assisting her grandmother with her corsage of yellow roses and baby 'mums; also one of the guest of honour cutting her cake.

A money tree was presented to Mrs. Jones, a gift from her entire family. All sang "Happy Birthday To You" and "She's A Jolly Good Fellow." Mrs. Jones voiced her thanks in a few well chosen words for the kindness and thoughtfulness of her family in planning such a happy occasion.

After all had done ample justice to the sumptuous turkey dinner, the family motored to the home of Mrs. Jones' daughter and her husband, Mr. and Mrs. James Palmer, Church St., where some time was spent in visiting and reminiscing and more family pictures were taken.

Another highlight of the evening was the distribution of small framed pictures of "Nan" — taken during her 80th year.

Those attending from a distance were Mr. and Mrs. Robt. Jones and Linda, Mrs. Helen Mastin, Mr. and Mrs. Albert Thornton and Mr. and Mrs. Richard Dunster, all of Toronto; and Fred Palmer, of Peterborough. Mr. and Mrs. Robert Palmer, Glencoe. Others were present from Belleville, Campbellford, Stirling and Rylstone. All wish her many more happy birthdays.

November Bride Tendered A Shower

Miss Sharon Hammond, popular bride-to-be was honoured at a miscellaneous shower held on Wednesday, November 14th, at the home of Mrs. Grant Richardson.

The rooms were tastefully decorated with a white wedding bell and pink and white streamers. Upon arriving, presumably to baby-sit, Sharon was given a seat of honour over which hung a tiny pink umbrella filled with confetti.

Community singing commenced a programme of numbers by Mesdames Mac Saries, Volney Richardson, Paul Adams, Foster Wilson and Don Pollock.

During the programme a suitable poem was read, while Mary Lou Rodgers showered the bride-to-be with confetti from the umbrella overhead.

Mrs. Grant Stapley, assisted by Mrs. Don Pollock, conducted several contests which were enjoyed by all.

Each guest presented Sharon with a quick-to-prepare recipe for her cook book.

An address was read by Mrs. John McIntyre and Sharon was presented with a splendid array of lovely gifts, for which she graciously replied. "For She's A Jolly Good Fellow" was sung, after which dainty refreshments were served by the hostess and her helpers.

St Paul's United C.W. — Unit Six

The November meeting of Unit Six was held in the newly renovated Sunday School rooms at St. Paul's with 28 ladies in attendance. They were greeted by Mrs. M. Vandervoort, the hostess for the November committee.

Mrs. R. A. Patterson, the leader, suitably opened the meeting with the theme hymn and prayer, after which she welcomed the women and especially the President of the General U.C.W., Mrs. D. Duffin, who addressed the group for a short time and reminded them of the Evening Coffee Party in November with a bake sale in the afternoon.

The minutes were read by Mrs. Ross Bush and the Treasurer, Mrs. J. B. Hough's report was encouraging.

Mrs. Patterson told of being in touch with the lady in charge of the Home for Retarded Children near Trenton, and said how pleased they would be to receive the 65 stuffed animal toys that were made by the Unit for Christmas gifts. Three of the ladies offered to assist Mrs. Patterson in wrapping these. Mrs. M. Aythart reported crib quilts for sale and said the bale for overseas and home relief would be packed December 4th. The matter of nomination

for a new leader was brought up but none was received.

Mrs. Volney Richardson expressed appreciation of all to Mrs. Patterson for her splendid leadership during the past year. It was decided to have the December meeting in the form of a pot luck luncheon at one o'clock on the 11th.

Mrs. Alex Bush chaired the meeting for devotions, the theme being "Light." "Jesus is the Light of the world, and those who have found Him have lighted their candles from that flame." Mrs. V. Richardson read the Bible lesson from John 1: 1-9 and 8: 9 with commentary by Mrs. H. Donnan. Mrs. Hough gave a reading, "What Colour is Peace?" Suitable hymns added to the inspiration of the devotions.

Mrs. Patterson conducted the study of "The Church in Canada." This was the last chapter from the study book "The Church of Christ." She briefly reviewed preceding chapters on the origin of the Church as spoken of in the Book of Acts, and of the bestowing of the gift of the Spirit of Pentecost. The Church is Christ continuing His work through His followers who confess His name, not just members of this church or another, but the fellowship of all who belong to Christ. The first task of the Church is to call men to personal commitment to Christ.

Several questions were discussed, such as: What is the Church? As its members what is required of us? What weakness do we note in church membership? Should there be more strict standards for church members? Mrs. C. Lansing and Mrs. V. Richardson assisted in the discussion and several points were noted by the leader, such as — It is required of church members to know the truth of the gospel and to be a witness and be of service to God. It is our duty to attend church regularly and to receive the Sacraments. It is our duty to pray and work and give so that the whole task of the Church in Canada may be accomplished and the Gospel proclaimed throughout the world.

To close the study hour a short candle-lighting ceremony was conducted to impress on all that as church members we have a mission to fulfil — to carry the light of the Gospel to all with whom we come in contact, whatever their race or creed.

After the meeting tea was served by the November committee making the social time most enjoyable.

Anne Reid Valedictorian

Following is the address given by Miss Anne Reid, valedictorian at Stirling-Rawdon District High School Commencement:

Mr. chairman, Mr. Good, members of the staff, of the board, ladies and gentlemen:

Can you picture yourself in your old age, sitting beside the fire in a comfortable chair? You reach for a book, yes that one, the red one bound in yellow and black. You look for the title and find these words: "This Is My Life."

Skimming through the earlier chapters you remember the carefree and irresponsible days of your childhood — the days when your time was spent in making mud pies with your friends and in making a nuisance of yourself to your parents. But these days were not long to last for you come to the chapter entitled "Labor Omnia Vincit," the motto of Stirling High.

This chapter of your school career begins with anticipation and apprehension. Soon you become established in a new way of life and a new way of thinking. By participating in school activities, of sports, of the choir, of the student's council you make new friends with whom you share the fun, the excitement, the thrills of being a teenager.

But more important you begin to discover who you, as an individual, really are. This is because the basic aim of any educational system is to teach you how to think. You are not alone in this process of discovering yourself for you have many guides. Always ready to give love, encouragement and understanding your family is the mainstay of your life. Someone once said that your teachers are like your family away from home. This is true. Like your family they are always willing to give endlessly of their time and of their efforts to help you. Throughout the five years of high school your teachers are not only instructors who lead you down the paths of learning but are also friends — friends who are deeply interested in you as a person and in you as a student. Then, there is the one guide and great teacher of us all. In times of stress and in times of joy you also are aware of the nearness of God.

With Commencement this chapter of your life draws to a close. But as it is the end of one chapter it is also the beginning of another — your entrance into the adult world. Whatever vocation you chose, whether it be teaching, nursing, technical work, or university, you once again find your way of thinking broken down. But gradually the jig-saw puzzle that is you is complete. With confidence you now enter the world to fulfill whatever purpose you may feel is yours.

Thoughtfully you now close the book and lean back into your chair with a feeling of contentment. A sense of well-being floods you for you know

it has been a good life, a satisfying one, a rewarding one. This is why you can thankfully say in the words of David, the psalmist, "My cup runneth over."

St Paul's Y.P.U.

St. Paul's Young People's Union held their meeting on Monday, November 12th with a poor turnout. Rosalyn Rodgers was in charge of the programme and organized a scavenger hunt. Lunch was served and the meeting closed with Taps.

The meetings of November 19th and 26th were postponed. The next meeting will be December 3rd at 8 p.m. in the new Sunday School Parlours of St. Paul's. So come on Young People, let's have a better turnout than last meeting.

Whether you drink or not
ask yourself . . .

WILL more outlets make for happier homes?

WILL more outlets help your boy or girl?

WILL more outlets make for safer driving?

WILL more outlets make the Village of Stirling a better place to live in?

The answer can only be
"NO"

MORE outlets for liquor will destroy more homes.

MORE outlets for liquor will encourage more juvenile delinquency (one of Canada's gravest problems).

MORE outlets for liquor will make for more impaired drivers, with more accidents, and it could mean you.

MORE outlets for liquor makes for more sorrow, hardship and misery. This is an established fact.

THERE ARE AMPLE OUTLETS ALREADY IN THIS AREA
TO TAKE CARE OF ALL REASONABLE NEEDS

OUR NEIGHBOURS

Many who drink urge a "NO" vote. They do not want the added temptation presented by liquor outlets in our village. Shall we help, or hinder them?

OUR NEW FAMILIES

Some of you have recently moved to our delightful Village. No doubt one reason for coming was that you believed this to be a good place in which to build a home and raise a family. Stirling is what it is partly because it has had no liquor outlet. Why change it?

OUR YOUNG PEOPLE

The young people of Stirling are vitally concerned about how you will vote on December 3rd. The kind of town you will leave to them, and in which they will live and make their homes, will depend to a great extent on whether you vote "yes" or "NO".

A LETTER TO THE VOTERS OF THE VILLAGE OF STIRLING

There has been recently organised a committee called "Stirling's Better Business Committee." The aim of this committee is to support the establishment of a retail store for the sale of spirits in the Village of Stirling. At this time, the Better Business Committee would like to outline its objectives.

Firstly, may we state that this committee in no sense approves alcoholism, as such. Nor does this committee intend to endorse the consumption of any alcoholic beverage. The members of this committee are either teetotalers or moderate consumers and all are responsible family men. Secondly, we realize that our aims in this endeavour will be opposed. But, let us review this question objectively.

Stirling has always been considered as being located like the hub of a wheel. Since the last time this question was presented to the voters of Stirling there has been new retail stores opened at Tweed, Madoc, Marmora and Campbellford. Existing at that time were stores in Belleville and Trenton. Thus, you may conclude, citizens of Stirling and district can readily purchase any beverage they desire in these centers. True, but they also can purchase (and do) any other commodity they desire at the same time. You might be surprised to know that the number of tourists in our surrounding area in the summer months amounts to several hundreds. Almost all of these people make their purchases in centers other than Stirling as they can purchase their refreshments there too. This is an undeniable fact!

This committee feels sure that the establishment of a liquor store in Stirling will in no way affect the consumption of alcohol by our citizens. Our people are a proud, independent lot and will get and drink what they want regardless of whether there is a store here or not. And we speak of those citizens only who are adults, over 21 years of age. There is no question of any minor procuring alcohol in a government operated store. This is strictly illegal. Our youths do get alcohol, but it is obtained by them illegally away from home under no supervision and usually when they are in charge of an automobile. They can't get it in their home town as the store operators will know they are minors.

This committee also is NOT endorsing any sale in Beverage Rooms or cocktail lounges. Nor will any group be able to bring this question to a vote for at least three years after December 3rd, 1962.

Also, Stirling Better Business Committee would not be surprised to find infiltrated opposition to the establishment of a Retail Store here by discreet lobbyists from our neighbouring towns. They know how much they benefit by the trade of our people.

Since there is no question of alcoholism involved in this vote the aims of the Stirling Better Business Committee are simply this:

- To inform the voters of the questions involved.
- To promote the establishment of a Government Controlled Retail Liquor and Beer outlet in the Village of Stirling.
- To provide another source of TAX revenue for Stirling.
- To provide another source of employment in Stirling.
- To provide more trade (and more jobs) for the existing businesses by offering the services that will attract — 1. tourist business; 2. the business that exists on the fringes of our trading area; 3. by retaining the business that we already have.
- By making it possible, as they have in all our neighbouring towns, for our citizens to procure what they want at home. It is silly to think that an abstaining minority should desire our people to drive even 12 to 14 miles to procure that which they can buy down street in any other town.

Stirling Better Business Committee suggests that a YES vote on December 3rd is a booster vote for your home town.

Mrs. W. H. Cooke Hostess To W.I.

On Wednesday evening the officers and members of the Stirling Women's Institute were welcomed to the home of Mrs. W. H. Cooke for their November meeting.

With Mrs. B. Reid presiding the meeting was opened in the usual form. Roll call "What it takes to be a good homemaker," brought to light worthy suggestions. In the absence of the secretary, Mrs. E. Foster took charge in reading the minutes and correspondence. Bills were presented along with the treasurer's report by Mrs. W. C. West.

Mrs. B. Reid, Mrs. Foster and Mrs. Smith were appointed as the delegates to the Area Convention in December.

Mrs. R. Williams, a patient in the Belleville General Hospital, will be remembered with a plant by the W.I.

Members were reminded to bring last year's Christmas cards (if available) to the December meeting to be sent to the mission; also the bale to Scott Mission will be packed the first week in December at the home of Mrs. W. C. West.

The programme was conducted by Mrs. M. Ward. Mrs. R. Sills gave the topic on current events, "Home Economics and Health."

Mrs. F. Smith gave a demonstration on making bedroom slippers. This was followed by a reading by Mrs. Smith on Remembrance Day.

Mrs. M. Ward gave a reading, "Yesterday, Today and Tomorrow." There are two ways in every week about which it is useless to worry. One is yesterday with its mistakes and cares, its faults and blunders. The other is tomorrow. It too, is beyond our control. Tomorrow's sun will rise either in splendour or behind a mask of clouds — but it will rise.

That leaves today and usually our present trials are easier to bear than remorse for what happened yesterday, or dread of what tomorrow may bring. Let us, therefore, journey but one day at a time.

Mrs. Ward also conducted a contest. The programme closed with the singing of "The Queen."

A dainty lunch was served followed by a social time. Mrs. Smith moved a vote of thanks to the hostess and her committee for the lovely lunch and evening.

Quitting For Scott Mission Sale

On Wednesday an all-day quilting was held in the Community Hall with a pot luck dinner. Three quilts were completed with a good turnout of members to assist in this task. Another quilting will be held soon to finish the supply for the year and to be contained in the bale. If any women are idle and wish to put in some stitches of love for the less fortunate, inquire from the President, Mrs. B. Reid. At our quilting we had Mrs. L. Rodgers, from West Hill, and Mrs. Gould, River Valley.

Green — Sleeper Wedding of Interest

A lovely November double-ring wedding was solemnized in St. Paul's United Church, Stirling, on Saturday, the 3rd, by the Rev. P. J. Hommersen, when Carol Evelyn Sleeper, daughter of Mr. and Mrs. John J. Sleeper, of Stirling, was united in marriage to Robert Gordon Green, son of Mrs. Gordon Green, of Stirling, and the late Mr. Green. Beautiful baskets of bronze and yellow chrysanthemums adorned the chancel and white satin bows and streamers the guest pews.

Mrs. H. Brown presided at the organ and accompanied the soloist, Miss Carole Burgess, who sang before the ceremony, "The Lord's Prayer" and during the signing of the register, "The Wedding Prayer."

Given in marriage by her father, the bride was radiantly lovely in her long white peau de sole gown featuring a fitted bodice with Sabrina neckline, and long, lily-point sleeves. The graceful skirt was accented by a front panel of Chantilly lace caught at the back with two tiny bows. She wore a bouffant veil of silk illusion tulle, held by a crown studded with seed pearls and carried a semi-cascade bouquet of red roses and white feathered carnations. A single strand of pearls and earrings, and white satin slippers completed her ensemble.

She was attended by Mrs. Ross Mason, of Bancroft, sister of the bride, as matron of honour, and by Mrs. Richard Knapton, of Belleville, also a sister of the bride, and by Miss Beverly Green, sister of the bridegroom, as bridesmaids. All were gowned alike in emerald green satin peau de sole with feather headresses and matching shoes and carried nosegays of bronze and yellow 'mums tied with matching ribbon. They wore pearl chokers and matching earrings.

Mr. Ronald Woodbeck, of Stirling, was groomsmen, while Mr. Ralph Utman and Mr. Robert Montgomery, both of Stirling, ushered the guests. The reception was held in the

church parlor, where the bride's mother received, attired in gold brocade in sheath style with matching jacket, green and brown accessories, and corsage of bronze 'mums. Assisting in the receiving line was the bridegroom's mother, wearing Milan green organza over taffeta with brown accessories and corsage of yellow 'mums.

The bride's table was appointed with white damask and centred by a three-tier wedding cake topped by a tiny bride and bridegroom, under an arch of pink and white flowers and white bells. Tall white candles in crystal holders and the bridal flowers completed the nuptial setting.

For the wedding trip to Montreal and Watertown, N.Y., the bride chose a Loden green, double-knit wool sheath with gold and black accessories and corsage of Tallman roses and muskrat jacket.

Guests were present from Bancroft, Dettlor, Gilmour, Marmora, Indian River, Carrying Place, Cardiff, Belleville and Stirling.

The bride, prior to her marriage, was honoured at a miscellaneous shower held at the home of Miss Carole Burgess; also at a presentation from the staff of the Bank of Montreal where the bride is employed.

Parents who habitually drive too fast, and break other traffic laws may be harming their children, even if no accident occurs, says the Ontario Safety League. A child who gets the impression from his father that it is smart to flout the law, "if you can get away with it" may pay for the lesson behind bars in later life.

St. Paul's U.C. Women — Unit Two

The November meeting of St. Paul's U.C.W. Unit Two was held on the eighth at the Church. The hostess, Mrs. A. Lawes, and the Unit President, Mrs. C. West, greeted the members at the door. A cross of poppies was featured beside the President's table.

The meeting was opened with the poem, "Think Only of These." Mrs. E. Wilson was in charge of the worship service, the theme being "Praise Ye the Lord for His Power and Redemption." The hymn, "Take Time To Be Holy" was sung with Mrs. Lawes as pianist. Mrs. O. Seeley read the Scripture lesson responsibly with the members. The hymn "O God Our Help in Ages Past" closed the worship service.

The offering was taken by Mrs. Wilson and dedicated by Mrs. West. After the roll call the minutes of the last meeting were read by Mrs. Allan Wells. In the absence of the treasurer Mrs. M. Maguire gave the report.

The chapter from the Bible study book was given by Mrs. B. Jones on "The Church of Christ — Its Message and Mission." Mrs. G. Loshaw gave a fitting paper on Remembrance Day. Mrs. West closed the meeting with prayer.

Two crib quilts were tied by the members, after which a delicious lunch of fruit bread, cheese and coffee was served by Mrs. Lawes and Mrs. R. Hunter. Words of thanks were expressed to the hostess by Mrs. G. Loshaw.

The December meeting will be held at the home of Mrs. M. Maguire.

Bethel U.C.W.

Mrs. Francis Reid was hostess to Bethel United Church Women on Thursday, November 15th. There were twelve members and three visitors present.

The president opened the meeting with the U.C.W. motto and theme hymn. A poem on "Life" was read by Mrs. Laycock, followed by prayer. Mrs. Don Heath read the scripture lesson from Colossians 1: 9-14 and Mrs. Donald Drewry gave the comments on the theme "Peace." Mrs. Harold Elliott was pianist for the hymns.

The minutes were read by Mrs. W. Heath, followed by the report of the treasurer. Proceeds from the turkey supper were very gratifying. Birthdays money was collected and roll call was well responded to by a verse of scripture starting with letter "N."

A vote of thanks was tendered Mrs. E. McKeown and Mrs. T. Laycock for the many articles they purchased for the church kitchen with proceeds from their quilts.

Plans were made for the Elaine banquet in December. The December meeting will be held on the 6th at the home of Mrs. J. Mulheron. The programme committee will be Mrs. J. Barron and Mrs. W. G. Fletcher.

Mrs. S. Brady prepared the programme. Mrs. W. Heath gave a piano solo, "Love and Devotion." Readings were given by Mrs. S. Hoover, "Let the Power of Christ Rest Upon Us;" Mrs. Brady, "The Sunset Years," from the study book "Hasten the Day;" Mrs. J. Mulheron led the group in a very interesting talk and discussion in the Bible study.

Landmark Destroyed. By Fire

A large frame house owned by Edward "Ted" Fleming, situated north of Ivanhoe Post Office, was burned to the ground on Monday afternoon.

Mr. Fleming and his father, Donald Fleming, were not at home when the fire broke out. The origin of the fire is unknown.

A passing motorist, Bill Matthews, of Cooper, noticed smoke coming from the roof and notified neighbours. Thanks to the quick response of Dept. of Highways workmen, who were stationed just opposite, also the Boc Construction men and County roadmen who were working nearby and neighbours, the contents of the ground floor was carried to safety. The loss was partially covered by insurance.

This attractive well kept home was built by Edward Baker and later owned by Mr. and Mrs. John Benson, 35-3, grandparents of Mr. Ted Fleming.

To the Citizens of Stirling

(The following is a copy of a letter written to a small town newspaper by a minister when said town was about to have a vote similar to the one in Stirling on December 3rd. To protect the identity of the writer (who did have his name signed to the article) the names of the writer and the town have been omitted.)

A famous 16th century writer, St. Ignatius of Loyola, said: "Man was created to praise, reverence, and serve God, Our Lord, and thereby save his soul. And the other things on the face of the earth were created for man's sake, and to help him in following out the end for which he was created. Hence it follows that man should make use of creatures in so far as they help him towards this end, and should withdraw from them so far as they are a hindrance to him in regard to that end."

Beverage alcohol is one of those "things on the face of the earth." It is for the use of man. It is in itself not forbidden — as lying, stealing, adultery, drunkenness, etc., are forbidden. Alcohol is neither morally good nor morally bad; it is morally indifferent, or morally neutral in itself.

But God does condemn drunkenness — as He does every sin against right reason, or against the Natural Law — like murder, adultery, theft, defamation of character, lying, slander, etc. But God does not condemn His creatures. He made them and found them his use. He does not forbid us to use iron, steel, aluminum, uranium, nitrogen, hydrogen, etc., even though these can be manufactured into guns, swords, bullets, bombs, etc. Nor does He condemn alcoholic beverage or forbid its use — even though it can be abused. If wine, for example, is bad and sinful, He would not have changed water into wine during the Marriage Feast at Cana. He would not have used wine for that wonderful Gift at the Last Supper. He would not have inspired the Psalmist to write: "He causeth the grass to grow for the cattle, and herbs for the service of man; that he may bring forth fruit out of the earth; and wine that maketh glad the heart of man." (Psalm 105, verse 14-15). Nor would He have inspired St. Paul to give this advice to his disciple Timothy: "Drink no longer water, but use a little wine for thy stomach's sake and thine often afflictions." (1 Timothy 5: 23). The laws of nature — fixed by God Himself — make the various alcoholic beverages possible for the use and joy of man.

Moreover, the Bible could be quoted over and over again to show that God warns us against, forbids, condemns, drunkenness. This is certainly true in the Book of the Prophet Habakkuk: "Woe unto him that giveth his neighbour drink, that putteth thy bottle to him, and maketh him drunk, also, that thou mayest look on their nakedness." (Habakkuk 2: 15). The first part of this verse, taken from its context, was used at a recent Panel Discussion. The speaker, and his prompter, gave evidence that "the unlearned and unstable wrest . . . the Scriptures unto their own destruction." (2 Peter 3: 16).

Every community has its busybodies who make their own lives, and the lives of their neighbours, miserable by their fanatical devotion to the un-Christian prohibition of alcoholic beverage. Some of them — in some localities — are even Clergymen, thundering and slamming the pulpit, condemning something called the "liquor traffic," to proclaim to anyone voting in favour of liquor outlets must answer in his conscience before Almighty God: (implying that a "Yes" vote is a sin?). Of course he will have to answer to God, and it is equally true that the man who votes against liquor outlets must answer in his conscience before God. Voting is a human act; it must be done in the Presence of God. Every human act is either good or bad. Every adult voting on this question must answer in his conscience before God — whether he votes "Yes" or "No."

But more often the community busybody is a small group who act and look as if they were carrying the problems of the world on their shoulders, apparently feeling personally responsible for anyone who would take a refreshing draught of alcoholic beverage. Their lives are miserable (and they make other people miserable too) because their worries and pre-occupations are over problems that are not their business. Their immediate business in this matter — if they are so interested — is to teach their children, their families, and those responsible to them, the laws of Christian morality — one of which has to do with temperance and sobriety. The plain truth is that every mature adult man and woman has the right to decide for himself or herself that he or she can use alcohol, or that he or she may leave it alone. And no other person has the right to deny him or her that choice.

Any reasonable man or woman can make the use of alcoholic beverage a virtuous thing. Some people find it necessary to practice total abstinence. Others practice moderation in varying degrees. Each will do what is best for himself out of Christian self denial for the love of God. Keep your drinking within the bounds of true moderation. That's virtuous — and meritorious too.

If a man drinks too much, he hurts himself (and possibly his family). He violates his reason, no man is at liberty to do. No human being has the right to make himself incapable of acting like a human being. Hence drunkenness — and alcoholism — is a kind of suicide.

"Wine taken with excess, As Scripture doth express, Causeth great heaviness Unto the mind. But they that take pleasure To drink it with measure No doubt a great treasure They shall it find."

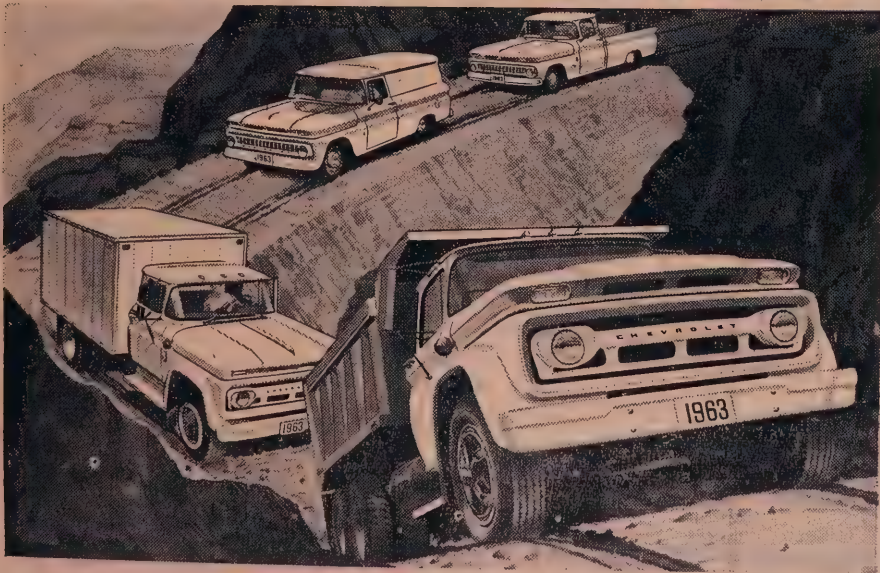

Anyone knows that this town is not "Dry" — and never has been. People will always get their liquor — legally if given the chance — illegally if that chance is not at hand — or they will proceed to make the stuff. A "bootleg" business in alcoholic beverage is not a healthy thing for any town. It makes for an unwholesome atmosphere, offers scandal to our children and legitimate liquor outlets (which would be under the strictest government surveillance) must be ready to take some of the responsibility for perpetuating the present situation or Status Quo, which is impractical, hypocritical, unreasonably — and therefore un-Christian. The writer of this letter will unashamedly and conscientiously vote "Yes" on both ballots.

THE NEW RELIABLES

ONLY CHEVROLET OFFERS THIS PROVEN PAY-OFF IN POWER, PERFORMANCE AND DEPENDABILITY

1963 Chevrolet trucks proved their mettle before they went on sale. To do this, six Chevrolets were taken across the continent for a 2,000 mile shakedown run through some of the wildest terrain in North America — the Baja California peninsula in Mexico.

Chevrolet's power, performance and dependability paid off — the entire run was completed without a breakdown, failure or delay; and with only normal maintenance! That's how '63 Chevrolet trucks got the name "The New Reliability".

This proven reliability is built into every '63 Chevrolet truck. Whether you run 'em cross-country or cross-town, '63 Chevies will deliver what they promise!

Get the facts today, from your local Chevrolet truck dealer, then you'll know — Chevrolet pays off!

NEW POWER for '63, Chevrolet has two new engines — a 230 cu. in. Six (140 hp) and a 292 cu. in. Six (165 hp). Both are equipped with 7-bearing crankshafts, positive crankcase ventilation, full-flow oil filter and Delcotron generators. They're the newest additions to Chevrolet's complete line of proven performance-tested engines.

TWO NEW SUSPENSIONS. Light Duty Chevies feature independent coil spring front suspensions for top comfort and increased durability. Standard equipment for Medium and Heavy is Chevrolet's new Variable-Rate leaf spring front suspension. Based on Chevrolet's work-proven Vari-Rate rear suspension, it provides better tracking and handling with reduced maintenance.

NEW FRAMES. Stronger, more durable ladder-type frames are '63 Chevrolet's backbone. Each frame, in each series, has been specifically engineered and built to meet the demands of load and road conditions. It's Chevrolet's way of making sure that every payload pays off in profits for you!

Class Reunion and Presentation

Mrs. Elsie Walker was hostess to a former Sunday School teacher, Mrs. Fred Barnum, and nine of her classmates last Tuesday afternoon at her home in Campbellford.

Over thirty-five years ago Mrs. Fred Barnum, Sunday School teacher at Zion United Church, Petherick's Corners, had an active group of teenage girls. Faithful in attendance and eager to practise their teacher's lessons, they organized themselves under the title of "Unity." This was a long time ago but from time to time throughout the past years they have kept this Unity by having the occasional get-together.

Upon hearing of the misfortune of one of their group each one made blocks for a quilt and held their latest reunion in the form of a quilting and pot luck supper. This quilt, pieced together by Mrs. Garrie Wright, was presented to Mrs. Albert Tinney whose home was burned and who hopes to move into a new one soon. What a memorable gift to start anew — something made by this special group of "girls" who shared so much of the past with her.

Mrs. Fred Barnum, who taught this class for many years (no one seems to know how many) cherishes the fact that this group have retained the principles learned at Zion and have continued in Christian service.

Those attending this event included Myrtle (Miller) Puffer, of Morganston; Evelyn (Barnum) Case, Toronto; Hazel (Petherick) Fisher; Coral (Watson) Stollery; Laura (Watson) Dunk; Gladys (Petherick) Barnum; Jessie (Wright) Kerr; Violet Wright; Freda (Petherick) Tinney; Elsie (Forde) Walker, from the Campbellford area; Mrs. Fred Barnum and Mrs. Carrie Wright. Margaret (Petherick) Osborne, another member of the class, was unable to be present.

LEGION NOTES

The Legion is most grateful to all who helped to make the recent Poppy Campaign such a success. The work done by teachers and students of all local and district schools was outstanding. Another group of unsung heroes were the several Girl Guides who volunteered to canvass the residential area of Stirling on Saturday, November 10th. Unfortunately, the weather was so miserable this part

of the program had to be cancelled. Regardless, the Legion is most appreciative of their generous offer and would like to thank all who volunteered.

A special notice regarding the forthcoming election of officers in the branch is being mailed to all members very shortly. The election of officers will be held at the general meeting on Tuesday, December 4th in the Legion Hall starting at 8.15 p.m. Annual reports will also be presented

NOTICE

Recently I transferred all of my former dental charts, records and X-rays to Dr. Jan Jagaciak in the hope that they may be of some assistance to him in the establishment of his dental practice in the Village of Stirling.

I respectfully solicit the patronage and co-operation of the citizens of the Village of Stirling and surrounding district for Dr. Jagaciak and wish for Dr. and Mrs. Jagaciak a very successful and happy future in the Village of Stirling.

to the general membership at that time.

There are critics within almost any good organization and this is also true of the Legion. In the past we have heard indirectly that only a small group are running the branch. The election of officers affords every member the opportunity of choosing the officers who will be charged with the responsibility of running the local branch. Two wars have been fought to preserve the freedom of the individual to express his own opinions and choose his own government. The forthcoming election of officers is not only a privilege which each member of the branch enjoys, but it is also a responsibility to attend and vote at such a meeting. All comrades are urged to attend the December 4th meeting.

We are sure that everyone who has had anything to do with the local branch during the past two years will agree that retiring President, Comrade Gil Finkle has done an outstanding job. He has acted in the best interests of the branch at all times and has carried out his duties as President in a most efficient manner. To Comrade Gil we offer the sincere congratulations and appreciation of all members of Branch No. 228.

With the approach of the new year the branch once again would remind all members that dues become payable as of December 31st. To pay your 1963 dues please contact Cdr.

Doug Patterson or Treasurer Cdr. George Noble. In this connection, the branch has grown in membership during the past year. It is hoped that all our present members will again put their support behind the Legion. There are still a number of eligible members in Stirling and district. All such veterans are given a warm invitation to come out to meetings and become members of Branch No. 228.

Duffy stated that a booklet was available through his office in the City Hall, Belleville, which gave detailed information on the subject.

It was also announced that the local Emergency Measures Organization was planning to make a complete survey or stock-taking of all the resources of Stirling and Rawdon. It was pointed out that in the event of a national emergency being declared, this area would be almost entirely on its own for at least 48 hours, and very likely much longer. Before any plan could be made to cope with such an emergency, it would be necessary to know what skills and resources we could possess in order to sustain the citizens and the community over this critical period.

Next Sunday, November 25, another public meeting is planned for the Stirling Community Hall at 2.30 p.m. The subject to be discussed at this time is "Decontamination." It is in the interest of all citizens to attend this important meeting.

All Municipal Offices Filled By Acclamation For Coming Year

Small Crowd Hears Reports of Various Municipal Departments At Meeting

The nomination meeting held in the Stirling Community Hall on Monday night was poorly attended and resulted in an acclamation for all municipal offices.

The nominations were as follows:

For Reeve — G. C. Mouck
For Council — Jas. Chambers, G. B. Noble, Bob Anderson and Bert Jones.

For Public Utility Commissioner — Jas. Wright.

For Public School Trustees — Ralph Jeffs, D. R. Williams and Dr. Peter Briggs, who replaces Edwin Warren, a member of the Board for the past eight years.

W. L. Pollock, Clerk-Treasurer, acted as chairman for the meeting following the close of nominations. Reeve Mouck.

In his opening remarks, Reeve Mouck voiced his appreciation to all those assisting him in his first year on Council as Reeve. "Members of Council and Public Utilities Commission had been most co-operative and much work had been accomplished," stated Mr. Mouck.

Turning to County Council matters he stated the greatest expenditure was the roads committee. The Home for the Aged was one of which citizens of the County might be justly proud. It was the only one in the province on which the farm operated at a profit, and the cost of \$2.37 per day per inmate was the lowest of any home in the Province. Much of the credit for this was due to the efficient management of Mr. and Mrs. Ken Yorke.

This year the County was faced with its share in the cost of an extension to Belleville General Hospital. An agreement had been reached whereby the County would contribute 30 per cent and the City of Belleville 70 per cent of the cost of a 200-bed extension, estimated at 4 million dollars. In conclusion he reviewed the financial report.

Councillor Jas. Chambers, chairman of streets, advocated that each year certain streets be given a permanent surface, which in his opinion would mean a saving over a term of years. He promised to do his best for the Village in 1963.

G. B. Noble, chairman of property, stated the Community Hall, while not paying its way on rentals, was one of which the Village should be proud. He spoke of the fine community recreation field and paid tribute to H. J. Wells for his work in this connection. He also had praise for the recreation committee.

Bob Anderson, chairman of cemetery, spoke of the good work of Harold Juby, caretaker, and stated it was fast becoming a two-man job to care for this property. The new vault and chapel had been completed and he invited any interested party to view it.

Councillor B. Jones also spoke briefly on police and fire matters.

Utility Commissioner

Jas. Wright, utilities Commissioner, outlined the work completed in the hydro and water departments during the year. He stated the hydro substation capacity was to be increased and the debentures on the water system were paid off, which would probably lead to a reduction in the cost of water service. "The sewer system was working satisfactorily," stated Mr. Wright.

School Board

Ralph Jeffs, chairman of the Public School Board, stated the Board was faced with the need of another classroom. In 1960 the enrolment at the local school was 227, in 1961, 240, in 1962, 243, and at the end of November it had risen to 253. He also stated the heating system at the school had been overhauled at considerable expense and voiced his thanks to the Board members for their co-operation. Dr. Peter Briggs, the new member

Boyce, of Kingston, is also a brother of the deceased.

Roger Smith, R.R. 3 Stirling, won an Atkinson award, value \$100, and Paul McKeown, of Rylstone, won a Ketchum Mfg. Co. scholarship, value \$50.

of the Board, also spoke briefly. Recreation Committee

L. Rawlings, chairman of the Recreation Committee, stated the committee was functioning well and outlined the financial report.

D. W. Rodgers moved a vote of thanks to the various Village officials for their efforts on behalf of the citizens and Bruce Glendinning paid tribute to Edwin Warren for his years of service on the Public School Board. It Jeffs also spoke in glowing terms of Mr. Warren's service.

The meeting closed with the National Anthem.

About 120 sat down to a delicious roast beef banquet at Carmel United Church, Rawdon, on Thursday evening. In welcoming the guests the President, Russell Sillis, West Huntingdon, extended an invitation to all to attend the annual meeting where a full report of the year's work will be given.

of the nation.

Fear is not to be feared but faced.

During the evening musical numbers were given by Douglas Pycar, Ronald White and Mrs. Bob Burkitt. Visitors were present from Peterborough, Northumberland, Prince Edward Counties as well as representatives of the Farmers' Union.

Plum Grove Cheese Co-Operative Burns Mortgage

About 110 people gathered at the Orange Hall at Wellman's on Friday night, November 23rd, on the occasion of the burning of the mortgage on Plum Grove Cheese factory. The evening was opened by a toast to the Queen, after which the Rev. Wm. Fletcher said Grace.

Following a bountiful turkey supper served by Wellman's Women's Institute, the programme opened with Mr. Craig Watson leading in a rousing round of community singing with Mrs. C. Watson at the piano.

Mr. Fred Beckett, President of Plum Grove, welcomed the guests, stating also that "we are proud of this accomplishment, which was due to the co-operation of directors and patrons of the cheese factory." He also paid tribute to the present cheesemaker, Mr. Harold Snarr, for his excellent work.

A solo was given by Janice Clancy, a vocal duet with guitar accompaniment by Betty and Doreen Maybee and a medley of old-time songs was sung by a quartette of Wellman's ladies, Mesdames K. Tompkins, J. Pollock, G. Clancy and F. Beckett. Readings were given by Mrs. Douglas Clancy, "The Squeaking Milk Stool" and Mrs. Keith Clancy "A Tribute to the Cow." Mr. Frank Palmer, Banockburn, tester at the cheese factory, spoke words of congratulations.

Mrs. Robert Wallace then presented the mortgage and discharge papers to Mr. Fred Beckett and spoke briefly in keeping with this duty.

History Given

A brief history of the cheese factory was given by the President from its incorporation in 1890 to the present date. The first directors were Robert Totten, Wilmot Vandervoort, Frederick Fanning, Emmanuel Maybee, Alexander Morton and James Duncan, the first president. Other presidents were Fred Fanning, Walter Dracup, Elgin Jackman, Blake Totten, J. C. Thain, Robert Wallace, W. L. Pollock and Fred Beckett.

Plum Grove Cheese Company was dissolved in 1948 and Plum Grove Cheese Co-Operative was formed with W. L. Pollock as President. In 1954 it was decided to build a new cheese factory. Every patron and other members of Wellman's community donated \$100.00 towards this project, raising the sum of \$2,800.00. Many hours of free labour were also given by members of the community. The directors at the time of building were Douglas Clancy, Everett Maybee, Tom Russell, Jim Pollock, Kenneth Tompkins, Fleming Goodkey and Fred Beckett. Since the new building was erected, production has more than doubled. The present directors are Douglas Clancy, Everett Maybee, Keith Clancy, Howard Wallace, Jim Rainie, Gerald Russell, Jim Pollock, Vice-President, and Fred Beckett, President.

Mr. Carmen Nix moved a vote of thanks to the directors for their work in building and paying for the factory and Mr. Douglas Clancy moved a vote of thanks to the President.

Mortgage

Burning Ceremony

The ceremony of burning the mortgage followed. Mr. Keith Clancy assisted the President with this pleasant task and spoke the following:

Mr. Chairman, Ladies and Fellow Workers:
When opportunity came our way a few years ago we asked ourselves what can we do with the heritage that has been handed down to us from the past generations? This couldn't be lost. Wellman's couldn't do without a cheese factory, so we accepted the responsibility and formed a new company. All had a share in the beauty, all had a part in the plan, what does it matter what duty, falls to the lot of man. Someone has blundered the plaster, and someone carried the stone, neither the man nor the Master, ever builded alone. Making a roof from the weather, building a house for a king, only by working together can we accomplish a thing. So with the co-operation of

each and everyone we are pleased that we can burn this mortgage on Plum Grove Cheese Factory tonight. May prosperity and success continue in future years.

Guest Speaker

Mr. Jim Pollock introduced the guest speaker, Mr. Sid Macdonald, Agriculture Representative for Hastings County, who gave a most descriptive address on the World Fair at Seattle, Wash., bringing many highlights to his audience.

The Rev. Wm. Fletcher spoke briefly and Mr. Gerald Russell moved a vote of thanks to the ladies of Wellman's Institute to which Mrs. Gerald Clancy responded. The evening closed with the singing of "O Canada."

Bank of Montreal Issues 145th Annual Report

Coast to coast in Canada — and abroad — the fiscal year just ended has been the busiest in the Bank of Montreal's 145-year history, according to Leslie Rawlings, manager of the Stirling branch.

Commenting on the bank's annual statement for the year ended October 31st, he said B of M resources climbed beyond the \$4 billion mark — to \$4,015 million — for the first time at a year-end.

Loans of all kinds, to individuals, businesses and municipalities, set a new record at \$2,269 million — 17.33 per cent above the 1961 figure — and deposits reached a new peak of \$3,713 million, the manager said. The deposits figure includes \$1,834 million of Canadians' personal savings, also a new high.

Earnings Up

The bank's earnings set a new record, too, the manager reported. Net profit for the year was \$16,013,612 for operations of the local branch and more than 900 other offices at home and abroad. However, this amount was earned only after pay-

ment of income taxes of \$18,353,442 — 14.6 per cent more than the net earnings figure.

22,000 Shareholders

The B of M's 22,000 shareholders are being paid dividends totalling \$3.10 per share, for a total of \$12,757,500, or \$5.595,942 less than the tax bill.

The B of M manager said quickly available resources are \$1,820 million, or 47.85 per cent of the bank's public liabilities of \$3,803 million, compared with a 54.50 per cent in 1961, and providing further evidence of the heavy credit demands made on the bank during the year.

Valuation of bank premises is shown at \$55,878,133, compared with \$63,062,983 in 1961, an increase of 4.46 per cent, and an indication of continuing branch modernization and

Monday, November 19th is an evening that Cliff Short, of the Legion team, should long remember. The latter was held by Gerry Armstrong (827) for the last few weeks. The over-all high single for this season to date is still held by Jack Doran (384).

Cliff must have sparked the Legion team, because besides his high scores, there were also several over-200 games turned in that night. Howy Parsonson bowled a 210, Jack Weatherall 206, Allen Sine 209 and George Noble 229 and 218. Gerry Armstrong rolled a 275, Clive White also a 275, Bob Taylor 201, 262 and 203, Bill Elliott 235, Wayne Barnard 202, Ray Poste 241, Doug Ferguson 201, Ron McCrory 217, Ricky Poste 267, Ken Cooke 253, 245 and 238, Allan Tanner 263, and Tom Kovack scores of 207, 206 and 278.

OF MANY THINGS

(By Ambrose Hills)

GOOD FARMERS

Farmers on this continent amaze the world. They produce staggering amounts of food each year.

It is not because they have large quantities of land. The Soviet Socialist Republic has 40 per cent more crop land than the USA, yet they cannot feed themselves as well.

Does this mean our farmers are smarter?

I believe the answer is yes. They know much more. They should, because hundreds of private broadcasting stations supply daily bulletins of farm information, and the networks do a magnificent job of farm broadcasting. Most of our top dailies have well-informed farm editors, and the weekly papers in rural areas give generous space to important farm news.

Excellent farm magazines give detailed farm facts.

Perhaps even more important is the vast amount of research being done for the benefit of agriculture. The universities are doing a magnificent job. Private companies engaged in canning and processing spend fortunes on research that will result in better, quality crops. Federal and local governments do their share.

But in the main, the credit must go to the farmers and their families. They put the information to good use. They buy the machinery and keep it operating. They know they will prosper only if they keep up to date, suffer if they fall behind. Take away the well-motivated, independent farmer and replace him with a mere servant of the state and most of this wonderful research and know-how would be wasted.

Today the news wires are telling of the dwindling farm population. Farms are getting bigger. Fewer farmers are producing more food. We may regret the loss of farm population, but we must admire the productivity of those who remain on the land. They offer an example that city folks ought to try to emulate.

Books Donated To Local Library

As part of a programme of public relations the Life Underwriters Association of the Bay of Quinte branch have donated a number of books to the public libraries in the district, including the Stirling Public Library.

The object is not to try and make experts, but to keep the public well informed so that they can ask the agent questions and have a better understanding of the life insurance they now own.

"Life Insurance Speaks For Itself," by M. Albert Linton, deals with such questions as: Why do you charge different prices for the same thing? A person is foolish to buy anything but renewable term insurance? When I borrow my own funds you charge me 6% etc.

Other books, "The Logic of Life Insurance," by Paul Speicher, and "Is It Any Wonder," by Edward Ruse, B.A., F.S.A., answer questions on savings, investments and taxation.

"Life Insurance Applied to Business Needs," published by the Insurance Research and Review Service, provides valuable information to the business man. The problems of sole proprietorship, partnership and close corporation are discussed. This book is regarded as a standard reference for business men and their needs.

If you are considering life insurance as a career: "Invitation to a Career," by Kenneth Anderson, available at your library, will give you a very complete inside picture of the industry and its opportunities.

Members of the association are dedicated to a code of ethics in dealing with the public. You might care to read this code, a copy of which is now available at your library; its constitution and by-laws date back to 1906. This story is contained in a book called "The Story of the Life Underwriters' Association of Canada" — 1906 to 1956.

To the Electors of the VILLAGE OF STIRLING

On MONDAY, DEC. 3rd, 1962, you are being asked to make a decision which may well decide the future growth and stability of Stirling

Following are the questions you are asked to vote for:

	Are you in favour of the establishment of government stores for the sale of Liquor?	YES	X
		NO	
	Are you in favour of the establishment of government stores for the sale of Beer only for residence consumption?	YES	X
		NO	

VOTE 'YES' BY MARKING YOUR BALLOT WITH AN "X" TO BOTH QUESTIONS

The polls open at 8.00 a.m. and close at 7.00 p.m. (Standard Time)

The Stirling Better Business Committee submit the following for your study stating why we think you should vote "YES" on the above questions:

It has been suggested that those who were responsible for asking for this vote were selfish business interests in this town. The decision to ask the Council to bring these questions before the people was decided at a public meeting called by the Stirling Chamber of Commerce. On a vote by ballot, three-quarters of those present voted affirmatively for this vote. The undersigned businesses in this town are not ashamed of seeking more business, or more jobs and more profits for our merchants. If this is being selfish, we're guilty. Just as we are presently guilty of providing the majority of the jobs, the bulk of the taxes and the initiative to keep the town thriving. This is no Utopia. We can use more jobs and more taxes. It has been pointed out that businessmen in neighbouring towns do not agree with this viewpoint, according to one opinion. We certainly can find no verification for this line of reasoning. Someone may be led to believe that they think thus when, in fact, they are unduly concerned about losing business to our town.

As to the question of who benefits, how could anyone be so naive as to suggest that the liquor interests solely benefit. Most people know that of the money spent on spirits, all but a very small percentage is returned to the people in grants to education, roads, wages and raw material purchases. If this wasn't so the people of this province would certainly be paying more in other forms of taxation. It is also ridiculous to suggest that the money spent thus would endanger the welfare of any of our citizens to any greater extent.

We don't believe our citizens to be fools. We

don't think that any more liquor will be purchased by them than they actually want or are purchasing now. You may take a horse to a dozen wells but he will only drink when he wants. As a matter of fact, from an expenditure viewpoint they can't help but spend less. It costs money to drive to a neighbouring town to shop and the only interests that could benefit from this locally are those who may be selling these facilities. We cannot conceivably think of any benefit derived by NOT having a Licensed Store here. Bootleggers that are here do benefit, of course. They are the ones to provide liquor to our youths — not a Licensed Government Retail Outlet. We know for sure that businesses in other towns benefit by the out-of-town purchases of our local citizens.

We can't help but think of many advantages to a local Retail Store. Some who abstain may say this is of no interest to them. The aged and retired might also think thus. But, it is of interest to all. It has been conservatively estimated that the municipal revenue from a Government Store could amount to 5 mills and we certainly need orderly growth in our community to help meet ever increasing costs. This store should also provide a few jobs, but its chief benefits will be most certainly derived by the increased trade that will be attracted to our town, and we hope this will mean more jobs for our people.

It has been pointed out that the partaking of an occasional cocktail is getting to be a way of life. We do not feel this to be anything new. This has been a fact since the beginning of our historical records and will continue to be so after our generations have expired. In fact we feel that there has been a definite improvement in the methods of consumption in recent years. It is getting out of the woodshed into the parlour sort-of-thing. Cocktails are being used as a convivial beverage rather than a way of getting "loaded." The greatest dangers in alcohol to our youth is lack of proper education in its

use. Too many people try to conceal its existence as a sin, which leads to curiosity in the young and the desire to find out "why." Alcohol is very much in evidence in the world today and our youths are far from stupid.

We are sure that the establishing of a Liquor Outlet in Stirling will have no bearing on the habits of our people nor the degree of consumption. We, as a group, are unequivocally opposed to the establishing of Beer Parlours "or Pubs" in our town, thus discrediting the assumption that this is the thin edge of any wedge — as suggested, and most of us are not "Johnnie-come-latelies" to this town. We are well aware now and always were about what is good or bad for us.

Restrictions create a sense of defiance. Beer and liquor is made and sold. If you are 21, it is your legal right to purchase it. When a commodity is legal, why penalize a purchaser by restrictions just because some do not wish to use that commodity. Vote with a sense of responsibility to your fellow citizens and to your young people; teach him, not legislate him, on the evils of drink; don't tempt him with restrictions as a forbidden fruit. Human nature rebels against such practices.

We business people in Stirling have enjoyed good business in our stores and services are second to none. We have to assure these services now and for years to come, if we expect a continuance of good business. The only way to assure this is to give the people of Stirling and surrounding community the opportunity to purchase commodities, which are their legal right, without the hazard and inconvenience of travelling to other centers to purchase those services which are rightly theirs. We feel the establishment of government controlled stores will assure their rights.

This is your chance to promote orderly growth in our town. We suggest you do so by voting "YES" (to both questions) on Monday next.

Local 171 Ont. Farmers' Union

The November meeting of Local 171 of the Ontario Farmers' Union was held at the home of Mr. and Mrs. Percy Mumby. Murney Bateman was chairman and opened the meeting with the singing of the Queen.

The Ontario Farmers' Union Convention was held in Lindsay on the last week of October. Several members of the Local spent a day there and some interesting reports were given. Mrs. Jeanne Williams was elected Lady President for Ontario. On the second afternoon there was a panel discussion on milk marketing. The men on the panel were James Baker, Dairy Commissioner for Ontario; Emerson Farnsworth, President of the Ontario Whole Milk League and chairman of the Provisional Milk Marketing Committee; and Bob Taylor of the Ontario Farmers' Union. Each member of the panel gave a brief address and then a question period was held. A great many questions were directed to the various members of the panel and some conflicting opinions were expressed. It would seem that a great deal more work will have to be done before a successful milk marketing plan is drawn up.

There is to be an executive meeting of the Local to draw up plans for the local activities for the coming year. The December meeting is to be held at the home of Mr. and Mrs. George Williams.

The ladies served lunch and a social time was spent.

Mr. Pleasant United C. Women

The postponed meeting of the Mount Pleasant United Church was held at the Church Hall on Wednesday afternoon, November 14th, with an attendance of twenty-five. The conveners were Mrs. Ross Jeffs and Mrs. Robt. H. Hoard.

The service opened with "Land of Our Birth." Mrs. Herbert Smith gave the prayer and Mrs. Burton Sharpe read the meditation on "Peace." Mrs.

Thos. Saries contributed a vocal solo, "Faith of Our Fathers." The offering was gathered and dedicated by the conveners. Mrs. Harry McAdam closed the programme with prayer.

Mrs. Robert H. Hoard synthesized the last two chapters of "Signals for the Sixties." This was centred on "Declining Standards" and "The Strength of the Nation."

Presentation
Mrs. Kenneth Weaver spoke briefly and told the group that the President, Mrs. Milford Wrightman, had paid in twenty dollars to make herself a life member of the U.C.W. and the Mount Pleasant Women had provided a membership pin. Mrs. Donald Knight did the honours.

The President then conducted the business. Mrs. Burton Sharpe reported the proceeds of the afternoon tea. Thank you letters were read and plans completed for the barn sale.

Rev. and Mrs. W. G. Fletcher conducted the Bible study based on "The Church."

The Christmas meeting will be held on the afternoon of December 15th and the Penny Bags will be collected.

Mrs. Allen Reid and Mrs. Lindsay McKeown served doughnuts and tea and all enjoyed a short fellowship together.

Eggleton Messengers

The November meeting of Eggleton Messengers was held on Friday afternoon at the school with Sheila Clarke presiding. The Messenger motto was repeated. The hymn, "Away in a Manger" was sung, followed by the Messenger prayer.

The Scripture reading, Psalm 23, was given by Wayne McMullen and the story on the lesson was read by Gerald Stapley. The offering was gathered by Sandra Stapley and dedicated with a prayer by Lloyd Clancy.

Sheila Clarke gave an interesting reading. Carol White called the roll, showing two adults and 26 children present.

The leader, Mrs. Maurice Clancy, told the legend of "The First Christmas Trees." Historians trace the lighted Christmas tree back to Martin

Luther. The story goes that while he was strolling through the country, he saw one Christmas tree in the woods. On returning home he attempted to reproduce the outdoor scene with a small evergreen and candles.

The leader also mentioned the first decorations; the first cards sent, and the custom of singing the Christmas Carols.

The story of two men, Father Joseph Mohr and Franz Xavier Gruber, who gave "Silent Night" to the world, was read. Following this "Silent Night" was sung.

All the Messenger members took part in a Christmas pageant. The girls formed a choir and sang a carol softly. The other members formed the manger scene with Mary Jones as Mary and Carol Stapley as the Angel. One by one the six speakers, Wayne McMullen, Kenneth Danford, Lin Stapley, Lloyd Clancy, Keith McMullen and Gerald Stapley recited their lines, then knelt before the scene.

World Friends papers were distributed by Terry Kovach, Billy Stapley and Douglas Danford. Mrs. Godden gave the closing prayer.

The lunch conveners, Lin Stapley and Mary Jones then served cookies and candy.

Three Messenger members, Lloyd Clancy, Wayne McMullen and Keith McMullen have been selling boxes of Christmas cards to help raise money for the Messengers. The leader, Mrs. Clancy is most appreciative for assistance given by those who have purchased cards from the boys.

Rylstone U.C.W.

Mrs. Ray Stewart was hostess to the Rylstone United Church Women on Wednesday afternoon when there was a good attendance of fifteen ladies and five children.

The President, Mrs. Wilfred Spencer, was in charge of the devotional part of the meeting, opening with the hymn "From All Who Dwell Below the Skies," followed by the Lord's Prayer in unison. The Scripture selection, Galatians 1: 9-13 and 21-23, was read by Mrs. Bob Spencer. The

meditation and prayer was given by Mrs. W. Spencer. The Bible study on "Salvation," was given by Mrs. Will Rutherford, taken from "The Word and the Way." The hymn, "God is Love, His Mercy Brightens," was sung.

A card of thanks was read from Mrs. Jack Spencer for fruit and cards received after her accident.

It was decided to order a dozen religious calendars from Mrs. Harold Piller and her Explorers at Springbrook United Church. The roll call was answered by a verse containing "Remember" or "Remembrance".

Mrs. Ellis Jones, programme convenor, was in charge of the balance of the programme and she read a 500-year-old prayer. Readings were given by Mrs. Chester Meiklejohn, "Points of View" and by Mrs. Ross Dickie, "No Easy Way." Mrs. Clarence Thomson contributed a piano solo, "Bless This House." Readings were given by Mrs. Cecil Finch, "Hope;" Mrs. Ray Stewart, "God's Word;" and Mrs. Ellis Jones, "Armistice." Mrs. Bob Spencer gave a vocal and accordion solo, "It Is No Secret." The meeting closed with the Mizpah Benediction.

Mrs. Jack Spencer conducted an oral contest on names of places in the Bible while refreshments were being prepared by the hostess, assisted by her mother, Mrs. John Rowe, Mrs. Cecil Finch and Mrs. Ellis Jones.

The next meeting will be held at the home of Mrs. Ellis Jones on December 12th. There will be a bazaar of small items suitable for Christmas gifts. The roll call is to be answered by paying fees for 1962.

Nominating committee for election of officers will be Mrs. Jack Spencer, Mrs. Ross Dickie, Mrs. Clarence Thomson and Mrs. Chester Meiklejohn. Programme committee will be Mrs. Ross Dickie and Mrs. Bob Spencer. Refreshment committee: Mrs. Chester Meiklejohn and Mrs. Ray Stewart.

Fallout What Is It?

When a nuclear bomb bursts near the ground, masses of soil and debris go up in an enormous cloud of radioactive dust. Large particles of dirt soon fall to earth, but finer particles floating in the air may drift hundreds of miles and settle over vast areas.

Fallout is what settles to earth out of a cloud of radioactive dust. Fallout dust particles give off rays which may kill or injure humans and animals. Some particles may burn the skin; others may get into the body and cause internal damage. Fallout contaminates everything it falls on.

Fallout is odorless and may be invisible. Its deadly rays cannot be detected except by operators with special instruments. Fallout may settle on land and water, crops, livestock, buildings, equipment, clothing, and food. Fallout can be dangerous even in remote parts of the country.

Fallout which reaches the ground soon after a nuclear burst is highly radioactive; what comes down more slowly may lose much of its radioactivity before it lands. Two days after an explosion, the fallout has lost most of its deadly power, but where it is heavily concentrated it may still be dangerous. There is no known way to prevent fallout from giving off its deadly rays, or to speed up the rate at which the radiation dies away.

There are several dangers resulting from a nuclear explosion. The main dangers are:

Light and Heat; Blast; Immediate Radiation; Radioactive Fallout, and finally, general panic among the population when such an explosion occurs. It is a proven fact that fear of the unknown causes panic. The Emergency Measures Organization will provide a means of dispelling much of the unknown and thereby it will do much to dispel the danger of general panic if and when such an explosion should occur.

Personal Responsibility

Your local Emergency Measures Organization has the immediate aim of providing the basic information which all of us will need if nuclear disaster should occur. It is the personal responsibility of every citizen to acquaint himself with this vital information.

In time of war it is comparatively easy to train and direct troops through an established chain of command. It is much more difficult to obtain the voluntary co-operation of the general public in a time of uneasy peace often referred to as the "Cold War." Anyone can ignore their responsibility but what person can ignore the problems and dangers which could envelope us all when the cold war warms up as it did just a few short days ago in Cuba?

In addition to providing immediate, reliable information and training for survival, the local E.M.O. faces another great task. For the first 48 to 72 hours following a nuclear attack we in Stirling and Rawdon will be entirely on our own. We can look to no one except ourselves for help during this period. This fact means that the only skills, the only resources at our disposal will be those we can provide for ourselves. It is up to us.

Following the first few days of a nuclear explosion, the citizens of this area will then face another enormous task in caring for and sheltering hundreds of persons who may be evacuated from areas of more severe attack. Under present plans, this area would be expected to accommodate such refugees at the ratio of 4 to 1 per population. Here again, the manpower, skills and resources of our community would have to be mobilized to meet such an emergency.

What manpower, skills and resources do we have? How can they be best organized and used in such an emergency? These are two very important questions for which the local

Emergency Measures Organization must obtain answers. The information must be obtained and then a plan evolved. To accomplish this task, volunteers are urgently needed to gather and tabulate the required information. The future welfare and safety of the residents of Stirling and Rawdon may well depend on the response to this appeal for help. No special skill is required, you will be given every assistance by the committee. If you can only give an hour a week, that hour could mean the difference of life or death for you, your family or friends if an attack by nuclear weapons were to come. Please contact the committee secretary, Mrs. Albert Fraser and volunteer your services now. She can be reached at EX 5-2491 any day between the hours of 6 p.m. and 8 p.m. Remember, if nuclear attack should come, more people will be injured or killed through ignorance and apathy than by the bomb itself.

Truth Is Stranger Than Fiction

(by Ann Bowman)

She lay on her chesterfield enjoying the brilliant fall sunlight, and feeling very grateful that she was home again. For some strange reason she began thinking of the orphanage where she and her sister, some three years older than herself, had been lodged before each of them went to separate foster homes and were finally adopted. Too young at the time to realize the separation, she had often thought of her sister, for she was the only family she had.

Unmarried, with a good job to go back to when she was fully recovered, she had many good friends and pleasant co-workers. But since her recent severe illness she had found herself thinking of a family. This sister of hers, so long ago taken into someone's home — what had happened to her? She had often looked in the telephone directory to see if their unique surname appeared there, supposing her sister had continued to use her own name. But she never found it.

Ah, well . . . it wasn't possible, she supposed, that they would ever meet again . . . She turned to some sewing she had started while staying at the Lodge, in London, built by the

Cancer Society for walking patients taking treatment, and run by the Ontario Division of the Canadian Ontario Cancer Treatment and Research Foundation. The Cancer Society volunteers had started her on this work, and she was now finishing a very gay apron which she hoped to wear in a while.

There was a knock on her front door. Slowly she made her way along the little hall and opened the door. A smiling woman stood there. "Good afternoon," she said, "I'm here to pay you a call from the Cancer Society. May I come in?"

"Do come in. I was already getting a little lonely after all the companionship at the Lodge."

The volunteer held a brightly wrapped gift and deposited it on the chesterfield. "Just a little something for your bathroom," she said, looking intently at the invalid.

"Is this yet another of the many services the Cancer Society renders patients? There seem to be so many."

"There are quite a number and 30,000 Women's Service volunteers in Ontario to render them."

For some time they sat together and chatted and the patient ceased to think of years ago, began to look to the future again. Then suddenly, very gently, the Cancer Society volunteer leaned forward. "Tell me," she murmured, "your name. It is a most unusual one. Did you ever have a sister?"

"Yes, I did. We were in an orphanage when very young and were separated. Why . . .?"

"I had the same name before I was adopted," the volunteer said, excitement rising within her. "I, too, was in an orphanage. Do you think it could be possible . . .?"

For an hour they compared notes, addresses, names. There was no doubt, they both knew, that after more than forty years of separation they had come together again.

A friendly visit from a Cancer Society volunteer had not only brought a patient relief from fatigue and loneliness, but the first real family she had ever known. Truth, she thought, as she said an revoir, is really stranger than fiction.

Fellow Citizens:

In last week's issue of the News-Argus, a letter appeared written by an unnamed minister. The letter was well supplied with scripture references. These were meant to bolster the arguments of those seeking to bring liquor outlets into Stirling. But, then, even the devil can quote scripture to suit his purposes!

Let us try to bring this issue into focus.

About two thousand years ago, a cross was raised in Jerusalem. Concerning that event, we read that even chief priests — i.e. Clergymen — stood by pouring their contempt on Him who was nailed to that cross. But neither the presence of such clergymen, nor the handsome profit made by Judas on his business deal, could make this event add up to anything else than the raising of a cross for Someone.

Now, it would be very difficult indeed to point to one instance in which the liquor business has brought goodness or godliness to a community. But it would be very easy to point to many instances where this trade has been a cross to individuals; where it has raised a cross in some home; where it has raised a cross in a community. We need not go beyond Stirling to find examples.

The issue before you is not to decide for prohibition or against prohibition; it is not for you to decide whether the wets have a better case than the dries; and it is not a matter of whether the dries have the better part in a debate than the wets. It is not even a matter of deciding whether liquor outlets will lead to better business or to poorer business; neither is it a matter of bigger or of smaller profits. The issue before

YOU - The Voter

is to decide whether YOU
will assist in raising a cross

YES or NO

Rev. P. J. Hommersen

To The People of Stirling:

On Monday, December 3rd, you, the people of Stirling, will go to the polls to vote on the question of a Liquor Store and a Retail Brewer's Outlet in the Village of Stirling. The Vote "NO" Committee wish to emphasize that this is not a vote on temperance; it is not a contest merely between the "wets" and the "dries". It is simply a question of having, or of not having, stores for the sale of beer and liquor in Stirling.

We have endeavoured to present the issue in a factual way. We, too, are vitally interested in Stirling as a Business Community. It must be kept in mind that a large number in the Vote "NO" Committee are businessmen. And we believe that the long term interests of Stirling are best served by keeping such outlets away from our community.

Before you vote, we would ask you to review the following points:

(1) This request for outlets is only the beginning. If this issue is approved, you — the citizens of Stirling — will likely be asked in the not too distant future to approve of Cocktail Lounges, Beverage Rooms, etc.

(2) It has been suggested that liquor stores would be good for business. Is this really a fact? How many of you would agree that Marmora, Madoc, or Tweed, are better business centres than Stirling. Many of our own merchants are not in favour of outlets!

(3) Again, on this point of outlets being good for business. But whose business? The liquor Store's, or that of the Local Merchant? We should remember that "wet" goods must be bought for cash. Every dollar so spent is not available for any other commodity.

(4) We must remember that our young people will watch with vital concern the outcome of this vote. Their stand on drinking in the years to come will be greatly influenced by the way in which we as a community vote.

(5) Finally, will liquor stores really help to make Stirling a Better Community to live in, and to bring our children up in. We have a fine Community — good churches, good people, modern schools, modern streets, modern utilities. Will these proposed stores add or take away.

MRS. CLARA BRIGGS

The death of Mrs. Clara Briggs occurred suddenly at the home of her daughter, Mrs. Gordon Logan, 520 James St., Toronto, on Saturday, November 24th, 1962.

She is survived by four daughters, Mrs. Ed Poole, Mrs. Pat Holychuck, Mrs. James Logan and two sons, Robert and Samuel, and 11 grandchildren, all of Toronto. Two sisters, Mrs. Ivan Caldwell, Stirling, and Mrs. Ross Forde, of Stratford, and two brothers, Sam Hobbs, of Brighton,

and Bert Hobbs, of Campbellford, also survive.

The funeral service was held Tuesday afternoon from the Wm. Speers Funeral Home, Toronto.

Interment in Sanctuary Park, Toronto.

"It appears to me," said the employment manager to the wife of a prospective employee, "that your husband has been fired from every job he ever held."

"That's right," admitted the wife loyally, "and it does prove one thing — Henry's no quitter."

To the Citizens of Village of Stirling:

My sincerest thanks to the citizens of Stirling for my re-election to the office of Reeve for the coming year. I will endeavour to do my utmost to merit your confidence in the interests of all.

Pat Boone's Example

We believe in the power of example and the sense of responsibility that goes with it. Every teenager is familiar with the clean-cut face and the charming voice of Pat Boone; but do we all know that this idol of millions of youth is a voluntary abstainer? In an interview he was asked "WHY", and these are the reasons he gave:

"Some people attribute the fact that I don't take a drink to my religious background. That's just a part of the reason. Far from being a saint, I know that I might enjoy drinking in moderation. But I also know that what I do carries my stamp of approval with millions of youngsters who often pay me the supreme tribute of imitation. Among those who would drink because I do would be some who, without knowing it, are vulnerable to alcoholism. If through an example set by me, a single boy or girl became a drunkard, how do you suppose I would feel?"

Now if Pat Boone cares this much about his influence over boys and girls whom he has never met, how much more should our parents and the voters of Stirling generally care about their influence upon their children and upon those with whom our lives are interwoven in this community?

Brownies Enrolled

Brownies were delighted to have their mothers attend the enrollment ceremony on Monday, November 26th.

As the mothers arrived at the meeting, they were escorted to their places by two Brownies. A lively singing game was enjoyed by the girls and then all retired to their six corners.

Brown Owl welcomed the mothers and introduced the new Pack, Miss Linda Wagner, and welcomed her into the 1st Stirling Pack.

The meeting followed its usual pattern. Brown Owl called "Tu whit — tu who!" and the Browniekins (new girls) took their places around the toadstool. Following the Fairy Ring the enrollment ceremony took place as follows:

Brown Owl touched each Browniekin in turn with her magic wand. The Browniekins went looking for Packy who asked:

What do you want?
Browniekins — I want to become a Brownie.

Packy — Come with me.
Browniekin is taken to the north side of the wood to a pool (mirror) and Packy says:

I'll twist you and turn you and show you the elf. Now look in the water and there see (Browniekin says: "Myself.")

Packy — Come, let us find Brown Owl.

Brown Owl greets the new Brownie and says: "What is the Brownie Law?"

New Brownie — A Brownie gives in to the older folk. A Brownie does not give in to herself.

Brown Owl — Do you know that if you now make the Brownie Promise you must always stick to it afterwards and do your best to carry it out?

New Brownie — Yes.
Brown Owl — Come to the Toadstool and make your Promise as a Brownie.

New Brownie (standing beside the toadstool making the Brownie sign) "I promise to do my best, To do my duty to God and the Queen,

To help other people every day Especially those at home."

Brown Owl — (Pins the Brownie pin on her tie, the six emblem on her right breast and gives her the Brownie handshake).

You are now a Brownie of the 1st Stirling Pack. I trust you to do your best for the Pack.

At the close of the enrollment ceremony Brownies did a test game on the recruit work, the sign and the shake and a singing game, "Hi Little Lassie."

Brown Owl thanked the mothers for coming and invited them to come again.

A number of Brownies finished their tests on the Gold Bar work.

During the Pow Wow plans were made for the Christmas party. The meeting closed with prayer and taps.

The following Brownies were enrolled: Mary Potter, Ann Ellacott, Patsy Warner and Judy Cooke.

E.M.O. Committee To Conduct Survey

The local committee have been advised that action is being taken by the Federal Government to commence such a program throughout Canada. Stirling and Rawdon therefore will be one of the first areas where this plan is to be carried out. The committee will require the co-operation and assistance of all citizens in order that this task may be completed as soon as possible. Once all the information has been gathered, it will then be tabulated and available to those persons who will be charged with the task of preparing an emergency plan for the area.

The survey will be taken by volunteer helpers who will visit every home in the Village of Stirling and Township of Rawdon. Citizens will be asked to assist the representatives in completing a questionnaire which will list all the skills, machinery, materials and supplies presently in the household.

In order to complete this great task, the local Emergency Measures Organization is in urgent need of many volunteer helpers. Anyone who can devote even an hour or two is asked to call the E.M.O. Secretary,

Mrs. Albert Fraser between the hours of 6 p.m. and 8 p.m. Telephone EX 5-2491. This appeal is also directed to all rural residents. It might also be pointed out that the proposed plan has the support of both the municipal authorities of Stirling and Rawdon.

Lindsay began as a milling centre on the Scugog River. It was then known as Purdy's Mills.
